# Minutes and Actions

**DECISION:** Approve minutes and review actions

*Chair & Secretariat*

*5 mins*

## Minutes and actions review (1 of 2)

1. Approval of minutes from last PSG
2. Open actions and actions from last PSG

Ref	Created	Action	Owner	Due	Status	Latest Update
PSG15-01	07/12/22	Progress work on customer segments in migration at the Migration Design Subgroup (MDSG)	Programme (Jason Brogden)	01/03/23	Open – in progress	In discussion via the Migration Working Group (MWG) and this is drawing to firm proposals. This action will remain open until there is a conclusion.
PSG17-03	01/02/23	Discuss at DAG if the DIP design could result in changes to the MHHS core design, and if so, the likely timelines for changes to the core design to be delivered	Programme	01/03/23	Open – in progress	A risk has been raised to the Programme RAID log (see risk R045). The risk is currently low scoring. Implications of the DIP design on the core MHHS design will be discussed at DAG once the DIP design is available (this action will remain open until this point).
PSG17-05	01/02/23	Review the post-implementation approach to Benefits Realisation and how Benefits Realisation will be handed over to Ofgem at M16	Programme (Jason Brogden)	To be reviewed at CP2	Open – in progress	To remain open and be aligned to Control Point 2
PSG18-03	01/03/23	Mobilise the Fast Track Implementation Group (FTIG)	Keith Clark	03/05/23	Recommend closed	FTIG mobilised and progress update on May PSG agenda
PSG18-05	01/03/23	Look into the assurance process for LDSOs for the accuracy of data for DUoS billing	Jason Brogden	05/04/23	Open – in progress	Programme progressing a statement on assurance to share with LDSOs and Elexon Helix
PSG18-06	01/03/23	Progress implementation of CR015 Option A via the Design Authority (DA)	Programme PMO	05/04/23	Open – in progress	Currently targeted for Interim Release 2 at end of July 2023. TO be discussed at Design Resolution Group on 18 May 2023. Action retained until implementation confirmed
PSG18-07	01/03/23	Update TMAG ToR and the Programme interim plan as per March PSG decisions	Programme PMO	05/04/23	Recommend closed	Housekeeping Change Requests approved and new versions of Governance Framework and Interim Plan shared
PSG18-09	01/03/23	Provide 23/24 budgets in PSG central party finance dashboards	Programme and Central Parties	05/04/23	Open – in progress	23/24 budgets from Helix, RECCo and the MHHS Programme are available in the dashboards. Awaiting DCC budget
PSG19-01	05/04/23	Ensure that the assumption (that participants going through SIT will not also need to qualify) is being managed via the RAID	Programme (Jason Brogden)	03-May-23	Recommend closed	Updated in and being managed via the Programme RAID (see assumption A165).

## Minutes and actions review (2 of 2)

Ref	Created	Action	Owner	Due	Status	Latest Update
PSG19-02	05/04/23	Share comms to clarify the dependency for participants on DCC June 2023 release in order for participants to be ready for SIT	Programme (Jason Brogden)	03-May-23	Open – in progress	Dependency already in RAID log (see dependency D155). Comms shared in the Clock 26 April 2023.
PSG19-03	05/04/23	Meet to share the approach to Migration in the Programme plan	Programme (Adrian Page, John Wiggins) Ofgem Sponsor (Jenny Boothe)	03-May-23	Recommend closed	Meeting held 20 April 2023, agreement reached and supporting papers shared with Ofgem
PSG19-04	05/04/23	Ensure the 11 key risks in the replan are appropriately included, scored and managed via the RAID management process	Programme (Keith Clark, Giles Clayden)	03-May-23	Recommend closed	Updated in, and being managed via, the Programme RAID. RAID references as follows: 1 = R118 & R273, 2 = R439, 3 = R181, 4 = D156, 5 = R380, 6 = R415, 7 = R332, 8 = R281, 9 = R480, 10 = R331, 11 = R481.
PSG19-05	05/04/23	Determine and share dates for May PSG accounting for CR022 Impact Assessment period	Programme (Giles Clayden, PMO)	03-May-23	Recommend closed	Extraordinary PSG scheduled for 12 May 2023 09:00-09:45. Meeting papers to be published 05 May 2023.
PSG19-06	05/04/23	Clarify dates / timelines for the Transition Design in the Helix dashboard	Programme (Adrian Page) Helix Representative (Lewis Robertson)	03-May-23	Recommend closed	Transition Design is being addressed in two tranches. The first is focused on the elements that have bearing on parties DBT has been progressed through a series of working groups and the artefacts are with industry for review (DAG approval in May 23) and we are planning the residual activity required for Tranche 2 (DAG approval in Aug 23).
PSG19-07	05/04/23	Provide a live forward view of industry consultations via the Collaboration Base / Website and / or in the PSG dashboards	Programme PMO	03-May-23	Recommend closed	A consultation dashboard has now been published on the <a href="#">MHHS website</a> and <a href="#">Programme Collaboration Base</a> . Direct link <a href="#">here</a> .
PSG19-08	05/04/23	Review risks and mitigations related to the Smart Metering Programme Implementation to ensure relevant risks and implications of legacy meters are appropriately quantified and managed	Programme (Jason Brogden) DCC Representative (Deborah Woods-Malone)	03-May-23	Open – in progress	Risk and dependency already in RAID log (see risk R471 and dependency D147). Follow-up session held 21 April 2023 between Programme, DCC, and Helix (resultant actions ongoing).
PSG19-09	05/04/23	Clarify if the DIP is included in the MHHS budget shared at PSG	Programme (Chris Harden)	03-May-23	Recommend closed	Confirmed that DIP is including in MHHS budgets

# Sponsor Update

**INFORMATION:** Hear key messages from the Programme Sponsor

*Ofgem (Melissa Giordano)*

*5 mins*

# Sponsor's message

---

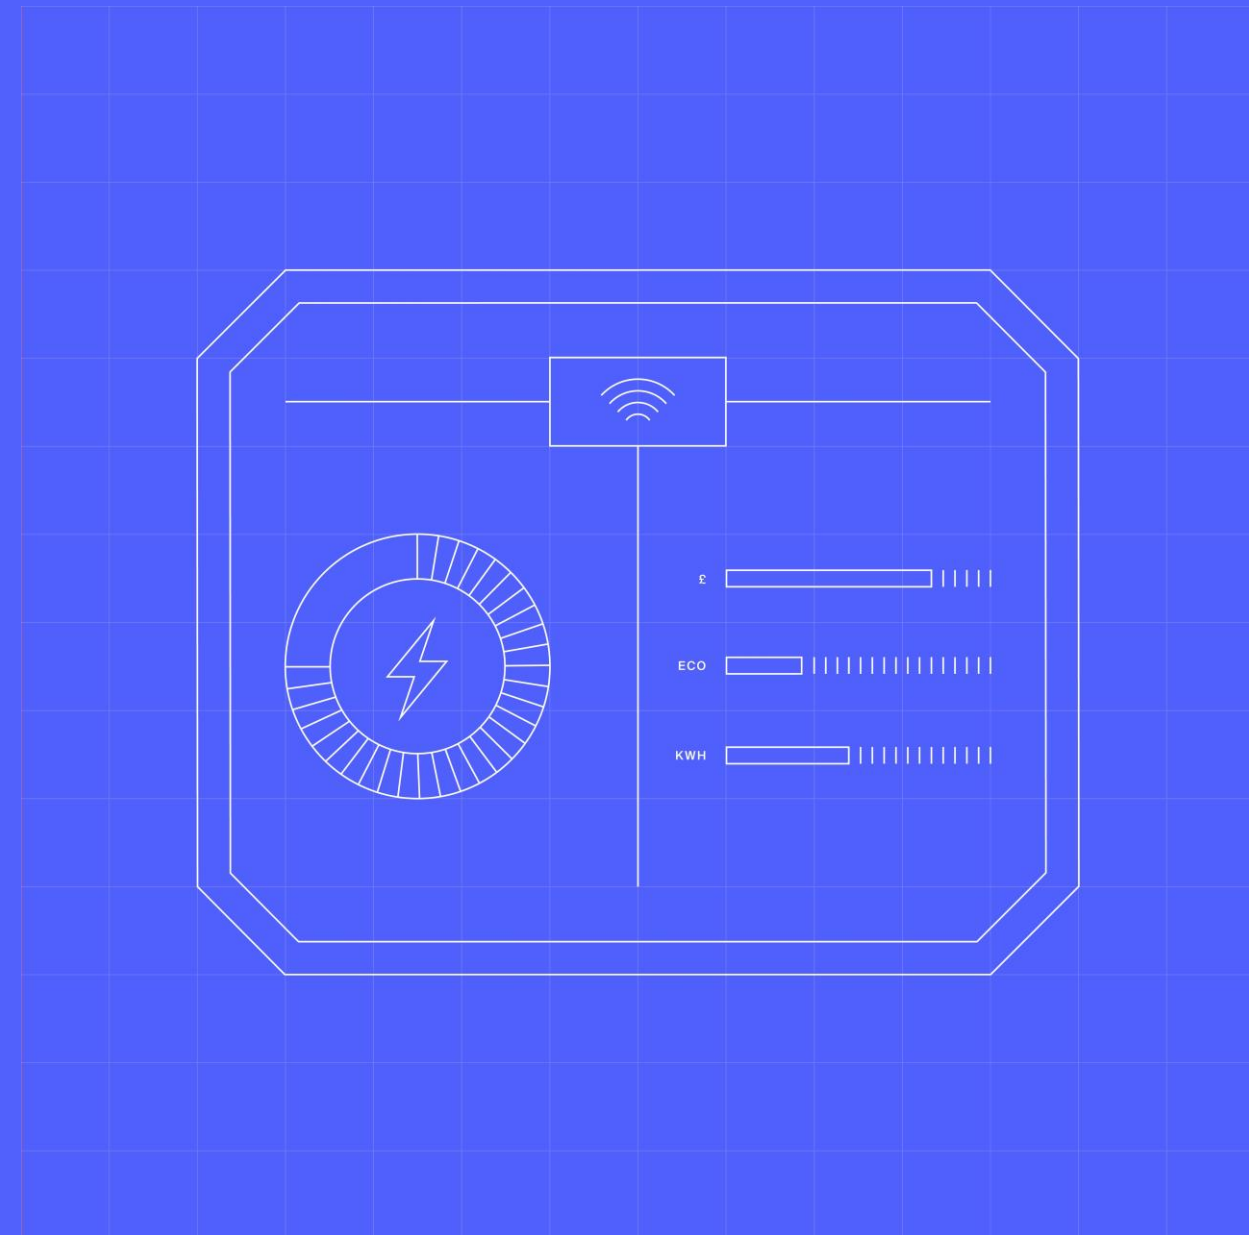

- This Programme remains a high priority for Department for Energy who are keen to support the earliest practicable implementation of the new arrangements.
- Welcome and appreciate the Programme's effort in preparing CR022 and the associated documentation.
- Urge industry to provide timely and detailed responses to the CR022 IA request and use all avenues to provide responses ahead of the extraordinary PSG on 12 May.
- Encourage all PPs to progress their PIT activities to ensure readiness for the next stage of testing.

# Programme Replan Update

**INFORMATION:** Verbal update on replan progress (e.g. Impact Assessment, playback sessions, and next steps)

*Programme (Giles Clayden)*

*5 mins*

# FTIG Update and SIT Outlook

## **INFORMATION:** Updates on:

- Activity at the first two FTIG meetings
- SIT outlook

*Programme (Keith Clark & Adrian Page)*

*15 mins*

### **FTIG purpose**

- FTIG will be convened on a fortnightly basis by the Programme Steering Group (PSG), where the PSG would like more detailed consideration of early adopter Programme Participants' (PPs') delivery plans, progress and management of identified implementation issues ahead of and throughout Systems Integration Testing (SIT)

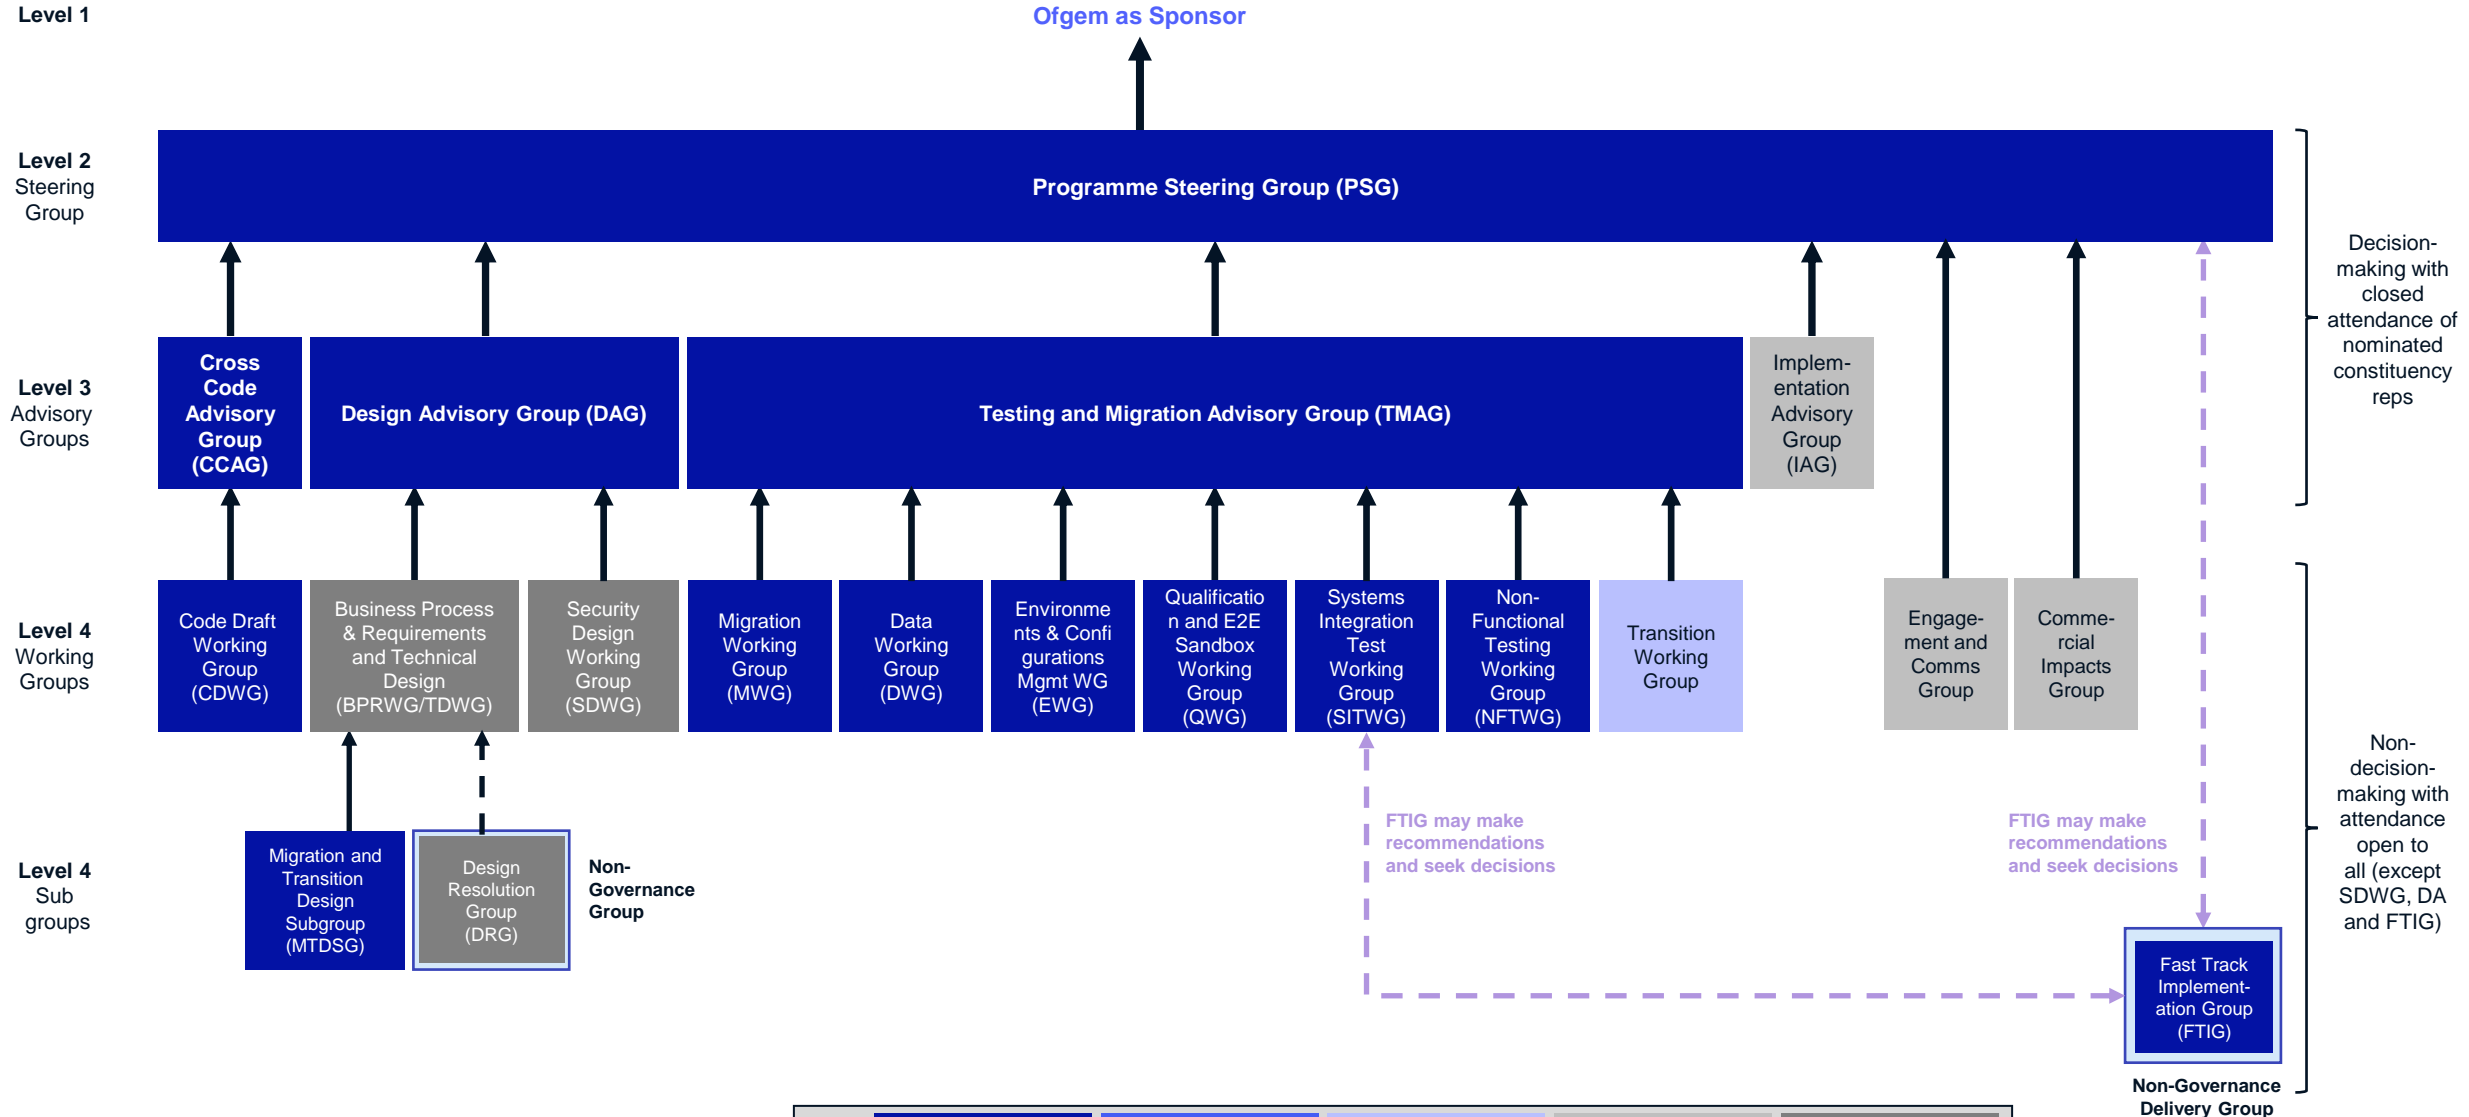

### **Expected FTIG outcomes**

- Core Capability Providers and early adopter PPs are appropriately engaged and supported in preparation for, and delivery of, SIT
- Delivery plans, their impacts and related interdependencies are transparently communicated, understood and managed across the programme
- MHHS Programme team, Core Capability Providers and early adopters are working in an aligned way to ensure joined-up delivery

### **Context within Governance Framework**

- FTIG is a non-governance group – will not make programme decisions that fall (or should fall) under programme governance, but may make recommendations to an appropriate governance group

# FTIG in the context of the current MHHS Governance and Decision-Making Structure

Key	Mobilised	Mobilisation in progress	To be mobilised in future	May be mobilised	Available for any ad hoc meetings
	Mobilised	Mobilisation in progress	To be mobilised in future	May be mobilised	Available for any ad hoc meetings

## Fast Track Implementation Group (FTIG) - Update

### 1<sup>st</sup> meeting held on 14<sup>th</sup> April 2023

#### Attended:

IPA

Avanade	British Gas
DCC	BUUK
Electralink	Callisto
Elexon (Helix)	E.ON Metering
RECCo	E.ON Next
St Clements	IMServ
	National Grid ESO
	NGED
	Octopus
	Ovo
	Siemens
	SMS
	Stark
	TMA
	Tym Huckin
	Utilita

#### Invited but did not attend:

Brook Green Trading  
Itron

### 14<sup>th</sup> April - Meeting headlines and actions

- Ofgem message (from Melissa Giordano):  
*“Thank you to the Core Capability Providers and the MVC volunteers for attending FTIG - Ofgem is excited about this fast-track group and is looking forward to getting progress updates from the SRO regarding entry into M9 in October this year and onwards to go-live at M10 early in 2025. As per my request at PSG, we would appreciate your constructive input into this group and help in finding ways to meet the SIT entry date - Thank you and good luck”*
- FTIG Terms of Reference were discussed and will be reviewed for confirmation at the next meeting (on 28-Apr-23)
- Attendance of software providers was discussed
- Further clarifications were sought (and given) about each organisation’s permitted attendees
- It was requested that ahead of each meeting, members declare their current delivery obstacles
- Members were reminded to provide their updated delivery plans (to reach SIT)
- Members were asked to provide the names (and rationale) for any proposed software provider attendees to be added to core FTIG attendee list
- Members started to review delivery obstacles declared by members ahead of the meeting
- MHHS subsequently provided the Programme’s position on attendance – including software providers

### 28<sup>th</sup> April - Outline for the next meeting (verbal update to be provided to PSG on 3<sup>rd</sup> May):

#### Actions and set-up

- Agree Terms of Reference
- Review SIT Dashboard and discuss FTIG reporting requirements going forward
- Share forward view of key SIT items and dates relevant to FTIG

#### Main body of meeting:

- Review FTIG members’ material obstacles to delivering in time for M9 and suggestions for overcoming them
- MHHSP proposal for delivery assurance of members’ plans to reach M9
- Share thinking on ‘go-live’ cohorts & ecosystems (managing M10 / M11 risk)

### Approach

- M9 – Component Integration Testing starts 30 Oct 2023 and has 6 intervals with PPs joining at specific points (see Appendix)
- Ahead of joining CIT, PPs have successfully completed connectivity testing and executed & reported on their PIT testing
- SIT Functional testing starts Mar 2024, followed by SIT Migration testing, SIT Non Functional testing and SIT Operational testing

### Status

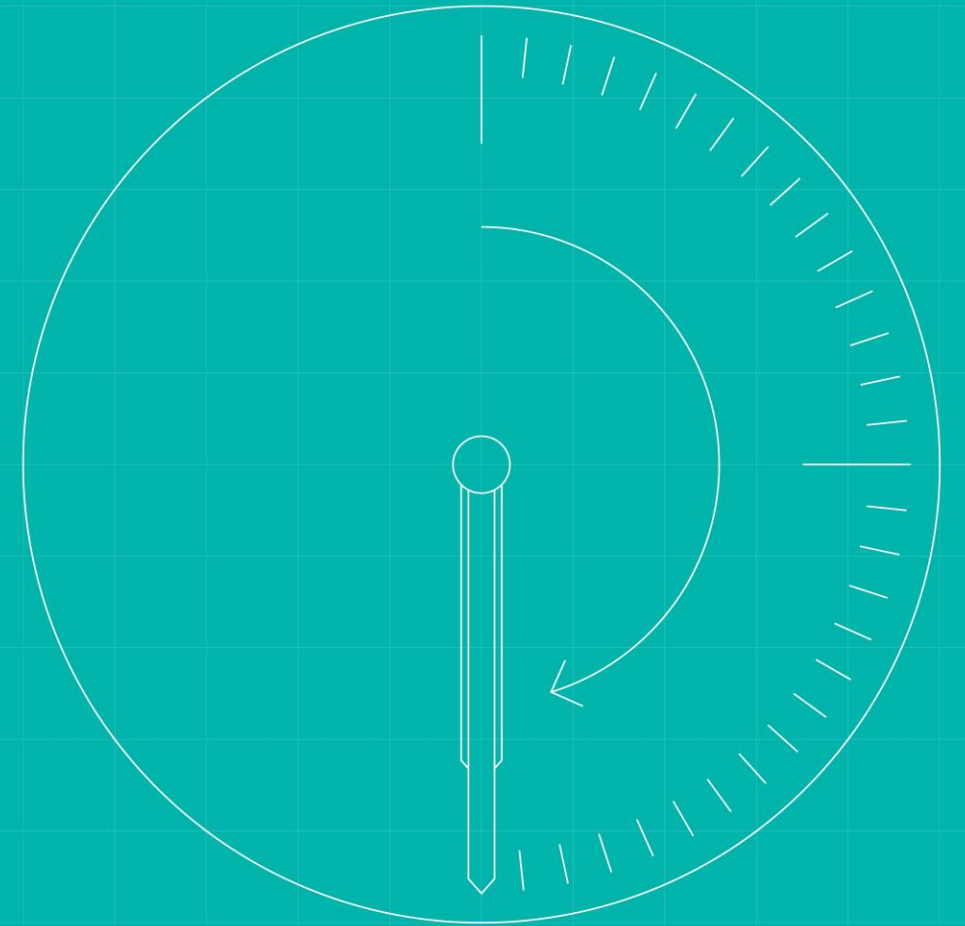

- CIT - Helix and DIP are needed for Day 1 - on target; agreement reached on SCS delivery; other parties on track {RISK}
- SIT volunteers – MVC is established, Placing reliance Policy being approved (final PAB 27-Apr-23) and volunteers are making proposals on how they will conduct SIT; SIT volunteers cut off date is 23 May – MHHS Programme continue to seek SIT volunteers {RISK}
- Test data requirements – POAP provided to DWG and SITWG; Data deliverables in progress; Data cut moved back (in the re-plan) 2 months to end Aug 23 {RISK}
- Environments – Approach and Plan approved at EWG
- Test reporting and defect management – “ADO User Guide” and “Defect Approach and Plan” both being drafted, released in May-23
- Mechanisms in place to monitor readiness: FTIG, WGs, PPC bi-laterals, Design assurance and Delivery assurance
- SIT (F) – LSCs proposal on a phased entry in to SIT is under MHHS Programme consideration {RISK}
- SIT Migration - SCS are working on the impacts of the migration design & D0170 on their delivery plan {RISK}

# Delivery Dashboards

**INFORMATION:** Questions from PSG members on delivery dashboard content

*Chair*

*10 mins*

## Delivery Dashboards Overview

Area	Title	Purpose
<b>MHHSP Programme status</b>	<b>Milestone Status</b>	Provide an overview of progress against Programme milestones
	<b>Interim Plan Status</b>	Provide an overview of progress against the Programme interim plan
	<b>Risk Themes</b>	Provide a high-level view of Programme Risks
	<b>Change Control</b>	Update on the status of Change Requests
<b>Industry Delivery Status</b>	<b>SIT Status</b>	Provide the status of SIT participants
	<b>Core Capability Provider Delivery Plans</b>	Provide an overview of Helix, DIP, St Clements, RECCo and DCC delivery plans and progress against them
	<b>LDSO Status</b>	Provide the combined status and progress of LDSO delivery (DNOs and iDNOs)
	<b>Central Party Finances</b>	Provide high level Central Party forecast of expenditure against plan
<b>MHHSP Workstream Activity</b>	<b>Fast Track Implementation Group (FTIG) update</b>	Update on activity and progress at FTIG <i>Note: please refer to the full agenda item for this month's update</i>
	<b>SI Workstream Update</b>	Update on activity and progress in the Design management, Testing and Transition workstreams
	<b>Code Drafting Status</b>	Update on the progress of Code Drafting against the Code Draft plan
	<b>Level 3 Advisory Group Updates</b>	Update on key discussion items and outcomes from recent Level 3 Advisory Groups and provide a forward look of agenda items
	<b>PPC Activity</b>	Provide information on PPC activity and participant engagement – includes a summary from the recent open day
	<b>Industry Change</b>	<ul style="list-style-type: none"> <li>Summarise items raised to the Programme horizon scanning process</li> </ul>
<b>Assurance</b>	<b>Independent Programme Assurance (IPA)</b>	Provide a progress update on in-flight and planned assurance activities

# Progress against the Interim Plan

**Red** Baseline date has not been met or is expected not to be met

**Amber** Baseline date may not be met and/or new date not yet agreed

**Green** Baseline date expected to be met

**Interim Plan status**  
Updated to 26/04/2023

Executive Summary
<ul style="list-style-type: none"> <li><b>Interim Programme Plan:</b> An updated interim PoaP was approved by PSG on 07-Dec-22. The interim PoaP was further updated in January 2023 to reflect the activities and associated dates from the Round 3 replan consultation. The PoaP can be found on the planning page of the MHHS website. The Interim PoaP was further extended to cover May-23 and Jun-23 due to the deferment to the Programme Re-Plan timelines and was approved by PSG on 05-Apr-23</li> <li><b>Programme Re-Plan:</b> The Programme has analysed the critical path elements within the plan, working with St Clements Services (SCS) and Central Parties to ensure the proposed plan reflects a realistic approach and timescale for all Core Capability Providers. The Test Strategy and Approach is being modified through SIT Working Group to mitigate the impact on milestones for these providers, particularly for entry to SIT and Core Capability Provider plans have been validated to provide confidence in the re-plan. Round 3 consultation on the Programme plan confirmed an MVC can be constituted, with the final SIT participants being agreed on 23-May-23. The re-plan CR for industry IA was published on 06-Apr-23, closing on 26-Apr-23. CR022 responses will be presented to PSG at an extraordinary meeting on 12-May-23 for recommendation to Ofgem to approve.</li> <li><b>Design Delivery:</b> The Design Advisory Group (DAG) agreed to baseline the MHHS Design on 31-Oct-22 subject to the delivery of a Work-off Plan. The completion of the Work-Off Plan was approved at an Extraordinary DAG on 16-Feb-23. The DAG approved the Migration Design artefacts at an Extraordinary DAG 31-Mar-23.</li> <li><b>Top Delivery Challenges:</b> (1) working with Core Capability Providers and increasingly with SIT volunteers to ensure continuing alignment of their DBT plans with the intended programme plan to best manage critical path risks, (2) reaching agreement with all stakeholders on the timeline in any re-baselined plan.</li> </ul>

Plan RAG Status	
Previous RAG	Green

RAID ID	RAID Description	Mitigation / Resolution	Resolution Date	Owner(s)	RAG
I077	There is an issue that the St Clements current DBT plans do not yet demonstrate that they will be ready for SIT start (M9) on 30-Oct-23	Weekly detailed planning meetings have been held between MHHSP and the St Clements team, to find a workable phased delivery of MPRS functionality into CIT and ahead of SIT Functional testing. New St Clements iterative DBT delivery plan has been shared, which indicates that the proposed programme re-plan SIT CIT and SIT (F) dates can be supported. A plan for St Clements migration-related DBT is awaited, and risk and uncertainty still exists relating to that timeline. IPA independently reviewing activities.	Ongoing	Keith Clark	Amber

# Risk theme 1: Commencing and completing SIT as planned

**RAID (1 of 3)**  
Updated to 24/04/2023

Theme	Summary	Mitigation Approach Overview	RAG Status	
<b>Commencing and completing SIT as planned</b>	SIT success is reliant on (1) Core Capability Providers being ready, (2) sufficient volunteers being available to form and sustain a minimum viable cohort (MVC) through SIT, and (3) sufficient volunteers progressing through SIT to enable earliest migration	<ul style="list-style-type: none"> <li>Mitigations are in place to manage risk of SIT not starting on time, of not securing an MVC and to mitigate any likelihood of potential volunteer drop-outs during SIT</li> <li>Reliance Policy requires suppliers to make proposals to allow MHSP to conclude SIT approach through governance</li> </ul>	Previous RAG	Amber (34 Risks)
			Current RAG	Amber (27 Risks)

Risk ID	Risk Description	Key Risks																Score movement since last PSG	Mitigation Plan														
		Risk Score Assessment																															
		Critical				High				Medium				Low																			
		30	29	28	27	26	25	24	23	22	21	20	19	18	17	16	15	14	13	12	11	10	9	8	7	6	5	4	3	2	1		
R433	There is a risk that the high volume of Design queries is putting pressure on the governance process (to get any changes approved) and there may be a delay in resolving queries													I																		-4 (21 to 17)	<ol style="list-style-type: none"> <li>Query responses will be prioritised according to materiality and risk – target is 5 working days to respond but noting high volume of queries currently</li> <li>A revised process has been developed to streamline the Design artefact review and release process (underway)</li> </ol>
R380	Risk that DNOs/iDNOs may not participate in the non-SIT/non-Qual LDSO testing or complete it in time																															No change	<ol style="list-style-type: none"> <li>Address all possible avenues of ensuring that the parties have enough incentive or obligations to participate (i.e., Core Capability Provider reports at PSG and recent LDSO deep dive)</li> <li>Readiness assessments &amp; Bilaterals; reporting SIT participants; briefings to LDSOs (e.g., INA meetings)</li> </ol>
R118	There is a risk that there is a lack of sufficient types and numbers of volunteers in SIT to be able to constitute an MVC																															No change	<ol style="list-style-type: none"> <li>Focus on Core Capability Providers via regular MHSP account meetings / reviews</li> <li>Round 3 encouraged earlier volunteering or declarations of interest from potential SIT candidates</li> <li>Participant bilateral engagement (via PPC) is also encouraging volunteers (or acting to retain them)</li> <li>Cut-off dates for participants to declare their volunteering</li> <li>SI Design and Test assurance will track participants' DBT progress to manage risk that expected SIT volunteers will not be ready for M9</li> <li>Short paper drafted on policy/understanding around SIT / Qualification Test equivalence, and options for PPs working with 3<sup>rd</sup> party IT / software providers – SITWG / QWG TMAG / PAB (BSCCo / RECCo)</li> </ol>
R273	There is a risk that SIT participants may have to be dropped from SIT participation prior to CIT, if they; <ol style="list-style-type: none"> <li>have not reached a sufficient point of progress in their DBT activities or</li> <li>decide not to participate after all</li> </ol>																															No change	<ol style="list-style-type: none"> <li>There needs to be contingency in the list of expected SIT volunteers</li> <li>The cut-off date for participants to declare their volunteering has been deferred to 23-May-23 to help to maximise the number of volunteers</li> <li>Set up and operation of Fast Track Implementation Group (FTIG)</li> </ol>
R432	There is a risk that new Change Requests have a material impact on the baseline Design																															No change	<ol style="list-style-type: none"> <li>Monitoring Change Requests and understanding their impact on Design</li> <li>Where changes not concluded, making clear what risks are contained within re-plan proposal</li> </ol>
R453	There is a risk that the St Clements Functional DBT delivery may be late for SIT																															New item	<ol style="list-style-type: none"> <li>Weekly detailed planning meetings continue – MHSP / St Clements</li> <li>Impacts of any design-related changes and / or design decisions need to be understood early and mitigations found</li> </ol>

CR017	LDSO Registration Service Dip messages processing times	Catherine Duggan, Electricity North West	Full Impact Assessment	DAG decision to defer, to be reported back to DAG (12/04/23)	Deferred	Deferred, to be reported back to DAG (expected 05/23)		
CR018	Registration Service Operating Hours	Ian Smith, MHHS Programme	Full Impact Assessment	DAG decision to defer and send back out for Impact Assessment (12/04/23)	Deferred	Deferred, to be reported back to DAG following IA (expected 05/23)		
CR019	Replacement of D0242/D0315 for MHHS	Peter Waymont & Neal Medley, Eastern Power Networks	Full Impact Assessment	DAG to review Impact Assessment and make approval decision (12/04/23)	Approved	Implementation		Ian Smith & Paul Pettitt, MHHS Programme
CR020	Interim plan extension	Amy Clayton, MHHS Programme	Housekeeping	Change Board Approved (24/04/23)	Approved	Implementation		Amy Clayton, MHHS Programme
CR021	Update TMAG Terms of Reference to reflect option of meeting co-representation	Amy Clayton, MHHS Programme	Housekeeping	Change Board Approved (29/03/23)	Approved	Completed	TMAG ToR Updated	Amy Clayton, MHHS Programme
CR022	MHHS Programme Re-plan	Lewis Hall, MHHS Programme	Full Impact Assessment	PSG decision to send out for Impact Assessment (05/04/23)	Open	Impact Assessment closing 26/04/2023. Outputs to go to PSG (12/05/23)		

This slide captures Change Requests raised in the last three months. A full record of all MHHS Change Requests can be found on the [Change Control page of the Collaboration Base](#)

Core Capability Providers	Status	Comment
<b>Elexon (Helix)</b>	<b>Amber</b>	Following quarterly (PI6) in Feb-23, Helix is forecasting PIT exit by end of Sep and entry in SIT (CIT) at M9 but with minimal contingency.  This is also dependent on Transition Design assumptions holding true and further validation of Helix ability to effectively complete connectivity testing in Sep-23 given potential Elexon environment constraints.
<b>DIP</b>	<b>Green</b>	Design is on track.  On target for CIT start date – need to agree how final PIT exit date fits into overall MHHS plan
<b>LDSOs / (St Clements)</b>	<b>Amber</b>	MPRS functional DBT plan has been confirmed as being able to accommodate phased SIT CIT start dates and SIT (F) start dates per proposed re-plan  MPRS migration-related DBT plan still to be confirmed  Impact of D0170 is not included in current plans, and in-flight CRs (when concluded) may also have impacts
<b>RECCo</b>	<b>Green</b>	DBT plans for EES are on track to be ready for phased CIT
<b>DCC</b>	<b>Green</b>	MP162, CSS changes and capacity upgrades on track. Ongoing discussion on test environments and test activities.
<b>ElectraLink</b>	<b>Green</b>	No core design changes to the DTN. On track re minor changes for migration and consequential change.
<b>LDP (SI)</b>	<b>Amber</b>	Placing Reliance Policy and PIT Guidance issued Progressing test scenarios and test cases on track Exploring further phasing option for SIT (F) Significant progress on test data but continues to be a risky area so closely monitoring

Round 3 responses from Participants		SIT volunteers (Round 3)	SIT interest expressed (Round 3)	Minimum required for MVC	DBT plans show support for Round 3 timeline	Status of Participant SIT commitments	Have started to use DIP simulator?	Design assured by the SI?	Testing assured by the SI?
<b>Suppliers</b>	Large	1	2	2	2	Commitments from suppliers will be confirmed after the conclusion of the Placing Reliance Policy and following suppliers' proposals for how to test based on that policy  1 (medium) supplier has committed to SIT so far	1	Progress of SI design assurance activities will be reported here	Progress of SI test assurance activities will be reported here
	Medium	1	1		2				
	I&C	2	3		5				
	Small	1	1		4				
<b>LDSOs (providing Network Operations Services and UMSO Services)</b>	DNOs	1	5	1	2	Commitments from LDSOs are will be confirmed after the conclusion of the Placing Reliance Policy and following LDSOs' proposals for how to test based on that policy - and based on re-plan alignment with MPRS DBT plan	1		
	iDNOs	0	7		4				
<b>Supplier Agents (providing DC, DA, MOP services for migration testing)</b>	HH / NHH	1	1	1	2	Commitments will be confirmed after the conclusion of the Placing Reliance Policy and following suppliers' proposals for how to test based on that policy	0		
<b>Service Providers (providing Metering Services Smart &amp; Advanced, Smart &amp; Advanced Data Services, UMS Data Services)</b>		6	3	2 for each role	7	MVC can be constituted based on current commitments  10 organisations have committed to SIT so far and are participating in FTIG	4		
<b>Software Providers</b>		7	4		11	Commitments from software providers are likely to be confirmed after the conclusion of the Placing Reliance Policy	15		

- Participants must declare that they are committed to participating in SIT, by 23-May-23
- FTIG has commenced with strong engagement from delivery managers of Round 3 volunteers
- Some SIT volunteers (and those expressing interest) have caveated their involvement on both being comfortable with the eventual SIT delivery approach and acceptance of their how they will conduct SIT based on the approved Placing Reliance Policy

Decisions required	From whom?	By when?

Risk or Issue & RAG	Mitigating or resolving action required	Date for action to be resolved	Action owner
If further changes occur this may impact the ability of the helix programme to incorporate change	Implementation of a MHHS programme change control process when changes are essential	28/06/23	
With the changes to the interface design with the DIP this may impact our ability to complete the interface build for industry testing	With the release of the first tranche of the transition design this will be responded. Required discussion will continue to understand the implications.		
There is a risk that the revised code documents are produced under pressure to meet a deadline and as a result are of poor quality.	With the return of the first tranche of documents from industry consultation it appears this risk has materialised, with many comments having been returned. Delays to finalising the code will impact the programme costs.	28/03/23	
If the support arrangements and testing schedule for industry testing are not available soon we may not be able to set these up in time for SIT	Conversations have commenced but there is little detail around the testing support requirements.	28/04/23	

Assumption & RAG	Action required to remove assumption	Date for action to be resolved	Action Owner
SIT will commence at the end of October.	Re-plan 3, 30 Oct for SIT, once this is agreed then the assumption will be removed. This still needs the entry criteria defined.	31/03/23	

Dependency & RAG	Managing action required	Date for action to be resolved	Action Owner
Transition design artefacts required before PI 6 can commence	The first tranche of the transition design has been issued which is being reviewed. Given this was needed for inclusion in PI 6	28/02/2023

<b>Status &amp; Outlook</b>	Activities reported as progressed in February:	Activities reported as expected to progress in March:	
	<ul style="list-style-type: none"> <li>Attended meetings &amp; working groups</li> <li>Stage 0 Registrations UAT in progress (June 23)</li> <li>Internal planning</li> <li>Internal Functional Analysis/Design</li> <li>Adapter service contract due to be signed</li> <li>Continued preparation for MPRS8.2</li> <li>Continued looking at UMISO options</li> <li>Reviewed/discussed possibility of being a SIT volunteer</li> <li>Attended meetings/discussions regrading 'placing reliance'</li> <li>Finalising response to CR022 (R3 Consultation).</li> </ul>	<ul style="list-style-type: none"> <li>Various working group attendance</li> <li>Stage 0 Registrations build complete; UAT</li> <li>Internal planning</li> <li>Internal Functional Analysis/Design</li> <li>Adapter service contract signed</li> </ul>	
	<b>Decisions to be made by DNOs</b>	<b>Impact of no decision</b>	<b>Decision by when?</b>
	Confirm adapter provider and complete procurement	Impact on testing capabilities and delay in DBT decisions	Feb -April 2023
Whether to participate in SIT (and if so for which systems)	If no decision is made, by default will participate in non-SIT LDSO (qualification) testing	23/04/23 (as per Programme date)	
Review of UMISO process as defined in Design and possible proposal to raise a CR	Potential cost implications and duplication of industry data	Mid May	

<b>Decisions required from the programme</b>	<b>Impact of no decision</b>	<b>Decision by when?</b>
Design baselines to be completed	Impact on delivery of DNO supporting systems	ASAP
Essential DIP documentation (CoCo & PHID) to be provided	Delays in DNO supporting processes being in place to complete CIT/SIT	ASAP
Replan – publication of updated programme plan	Plan status is Amber until programme milestones are confirmed	ASAP
CR Decisions Required (e.g. C017/CR018/CR019) to provide further clarity on enduring design	CR017/18 Requirements ambiguous leading to potential misalignment across parties; CR019 DNO's unable to recover DUoS charges	ASAP
Scope for SIT (Functional) participation by the DNO (Durabil/UMISO/LDSO approaches) to be clarified by the programme.	Dependency on systems and data for the SIT may not be clarified impacting quality of testing.	ASAP

<b>Escalations (priority items for attention and support from the programme)</b>	<b>Action by when?</b>
Clarification of SIT approach and testing requirements for LDSO (DUoS billing) and UMISO processes	ASAP
Clarification of Qualification testing requirements (non Registrations)	ASAP
Clarification of DNO to DNO processing via DIP (UMISO and LDSO processes)	ASAP

<b>Risks or Issues</b>	<b>Impacts</b>	<b>Opportunities to resolve and deliver as soon as possible</b>
Registration Operating Hours	Significant cost/support impacts	CR017/18 decision
DAG approval of work off plan with large number of queries unresolved	Design is baselined but is then undermined by large numbers of Change Requests	
Lack of central programme design issues log	No visibility of issues/progress	Publish a design issues log
CIT entry criteria and Testing approach is unclear potentially preventing CIT start until all PIT testing is complete	Potentially delays systems from being ready for SIT start	Increased phasing of deliverables/ parallel execution
No DPIA has been published to allow the planned data extract to be provided	If this is not signed off by each provider, this will cause a mismatch in test date for SIT	Require documentation/discussion to progress this with GDPR teams ASAP. All parties to be engaged
DUOS billing Potential loss of DNO revenue Provide ability for DNO's to test DUOs billing in SIT	DUOS billing Potential loss of DNO revenue Provide ability for DNO's to test DUOs billing in SIT	DUOS billing Potential loss of DNO revenue Provide ability for DNO's to test DUOs billing in SIT

<b>DNO Key Milestones (in Round 3 plan)</b>	<b>Round 3 date &amp; confidence level / RAG</b>	<b>Reasons for confidence levels</b>
<b>For those intending to participate in Systems Integration Testing (SIT)</b>		
M9 - SIT CIT start	<b>30-Oct-23</b> 4 Medium confidence 2 Low confidence	*St Clements to provide for MPRS *Durabil/UMISO/LDSO approaches to be decided – subject to programme clarifications
SIT (Functional) start	<b>27-Feb-24</b> 6 Medium confidence	*St Clements to provide for MPRS *Durabil/UMISO/LDSO approaches to be decided – subject to programme clarifications
M10 - readiness to support migration start, including Registration Services. Network Operators and UMISOs	<b>07-Mar-25</b> 6 Medium confidence	*St Clements to provide for MPRS *Durabil/UMISO/LDSO approaches to be decided – subject to programme clarifications
<b>For those intending to participate in non-SIT LDSO (qualification) testing</b>		
Non-SIT LDSOs testing start (Functional / Migration / NFT / Ops)	<b>02-Jul-24</b> 6 Medium confidence	DURABILL/UMISO/LDSO approaches to be decided – subject to programme clarifications Subject to no further significant design changes These confidence ratings include those DNOs who have volunteered for SIT
M10 - readiness to support migration start, including Registration Services. Network Operators and UMISOs	<b>07-Mar-25</b> 6 Medium confidence	Programme requirements in relation to requirements for LDSO/Billing/UMISO are still to be clarified. Guided by St Clements for readiness on Registration (MPRS) and Network Operators (DURABILL) start of testing by 02/07/24. Subject to no further significant design changes These confidence ratings include those DNOs who have volunteered for SIT

<b>DNO Adaptor status</b>			
<b>Decision to use an adaptor</b>	<b>Functional scope of adaptor agreed</b>		<b>Adaptor procurement completed</b>
Yes 6	No	MPRS only Wider 6	0

	<b>Decisions to be made by IDNOs</b>		<b>Impact of no decision</b>		<b>Decision by when?</b>	
	SIT participation		Potential to have no LDSO SIT party		23.05.23	
	Understand whether the IDNO Placing Reliance for SIT meets the Programme Requirements.		Perceived lack of IDNO participation in important test phase.		26.04.23	
Commercial provided by Service Provider for Collaborative Testing – to be signed by 12th May		Indecision on which parties are participating in SIT.		12.05.23		
<b>Decisions required from the programme</b>		<b>Impact of no decision</b>		<b>Decision by when?</b>		
CR017 – <i>LDSO DIP Messages Processing Times</i> and CR018 – <i>Registration Service Operating Hours</i>		Additional delay to Registration system readiness. Additional cost. Additional resource for transition and enduring process		10.05.23		
Clarifications on LDSO DINs, including unnecessary/duplicate messaging		Unable to proceed fully with DBT and, ultimately, to be ready for M9, although it appears to be somewhat mitigated by CR022 proposals		ASAP – impacting our own and SCS' DBT		
Clarification from the Programme on what is required for M9, and subsequent Re-Plan proposed changes		May influence the priority of build and could impact M9 readiness and subsequent milestones		ASAP		
Suitability of Service Provider taking members of INA and IDNO Community through test phases as collective.		Uncertainty of IDNO participants in SIT.		23.05.23		
<b>Escalations (priority items for attention and support from the programme)</b>				<b>Action by when?</b>		
Clarity and resolution on the above				ASAP – impacting our own DBT		
<b>Risks or Issues</b>		<b>Impacts</b>		<b>Opportunities to resolve and deliver as soon as possible</b>		
Registration system not ready for M9		IDNOs unable to commence SIT		Engagement with Programme to determine Musts and Non-Essentials for SIT start		
Continued changes to Design		IDNOs unable to complete build		Continued engagement with Programme to determine design		
Code drafting triggering a change to Design		Delay to M9		Code drafting completed earlier		
<b>For those intending to participate in Systems Integration Testing (SIT)</b>			<b>Round 3 date &amp; confidence level / RAG</b>		<b>Reasons for confidence levels</b>	
M9 - SIT CIT start			<b>30-Oct-23</b> [0] High confidence [2] Medium confidence [2] Low confidence		It is still not fully clear what is required for CIT start. This phase suggests that only testing with our adapter will be required but we are expected to have completed PIT prior to CIT start. It's also not clear if this requirement is on a system by system basis or if it needs to be all of our systems or nothing i.e. does it matter if one of our systems has not fully completed PIT? In addition to the above, although guidance has been issued for PIT there's no format for how PIT documentation has to be completed therefore it's impossible to give an accurate timeline of how long generation of documentation of testing will take.	
SIT (Functional) start			<b>27-Feb-24</b> [0] High confidence [2] Medium confidence [2] Low confidence		This confidence level is caveated on the basis that if CIT start only extends as far as adapter testing then with the exception of any additional design changes effecting development occurring then this date should be achievable.	
M10 - readiness to support migration start, including Registration Services. Network Operators and UMSOs			<b>07-Mar-25</b> [#] High confidence [3] Medium confidence [1] Low confidence		Again this is all based on the above completing on time for all affected systems.	
<b>For those intending to participate in non-SIT LDSO (qualification) testing</b>						
Non-SIT LDSOs testing start (Functional / Migration / NFT / Ops)			<b>02-Jul-24</b> [0] High confidence [2] Medium confidence [1] Low confidence		We would hope to be in a position to start non-SIT LDSO testing on time. However, it has been apparent from discussions on qualification that there remains areas for the Programme to clarify and provide more detail of what is expected. This may result in timescales being pushed out but we will continue to engage with the Programme	
M10 - readiness to support migration start, including Registration Services. Network Operators and UMSOs			<b>07-Mar-25</b> [0] High confidence [2] Medium confidence [1] Low confidence		We would hope to be in a position to support migration start in a timely manner. However, this will be caveated by the actions taken by the Programme and any prior steps being completed on time	
<b>IDNO Adaptor status</b>						
<b>Decision to use an adaptor</b>			<b>Functional scope of adaptor agreed</b>		<b>Adaptor procurement completed</b>	
Yes [6]      No [0]			MPRS only [0]      Wider [0]		[0]

# SI Workstream – Progress Update

**SI Progress**  
Updated to 2504/23

Workstream	Progress	Nest steps		
		What	Owner	By When
Design	1000+ design query levels received: <ul style="list-style-type: none"> <li>• Low volume outstanding (Approx 60)</li> <li>• Further wave of queries is expected following code drafting feedback, which may elongate response times, these may feed into the design artefact updates</li> <li>• 265 on DIN log entries including 138 in the first planned June release to be addressed by the new governance process agreed at DAG</li> <li>• Currently 3 artefacts released planned – end June, end July and end Sep 23</li> <li>• First set of review comments against the updated due 9-May-23</li> </ul>	Continue to answer queries and monitor levels Where possible, address queries in bulk (e.g. ESG)	MHHS	Ongoing
		Consider how to speed up overall approval of design artefacts changes.	MHHS	Ongoing
		Respond to comments received against the design artefact updates	MHHS	10-24 May 23
Design	Design Assurance <ul style="list-style-type: none"> <li>• Phase 1 – issued to CCPs, responses due in 02- May-23</li> <li>• Phase 2 – SIT volunteers due to be issued 09- May-23</li> </ul>	CPPs to prepare and submit responses SIT volunteers to prepare and submit responses	CPPs SIT volunteers	02-May-23 29-May-23
Testing	SIT volunteers – MVC is established, Placing reliance Policy being approved (final PAB 27-Apr-23) and volunteers are making proposals on how they will conduct SIT	Submit proposals Continue to seek SIT volunteers	SIT volunteers MHHS	23-May-23 23-May-23
Testing	Test data requirements – POAP provided to DWG and SITWG; Data deliverables in progress; Data cut moved back (in the re-plan) 2 months to end Aug 23	Data deliverables	MHHS	Ongoing
Testing	Test reporting and defect management – “ADO User Guide” and “Defect Approach and Plan” both being drafted, released in May-23	Documents released for industry review	MHHS	May 23
Testing	SIT (F) – LSCs proposal on a phased entry in to SIT is under MHHS Programme consideration	Agree approach and take to SITWG	MHHS	May-23
Sims & Ems	First 15 DIP Simulator interfaces live and being accessed by 40 PPs Further 6/32 developed – to be release end Jun 23	Further development	MHHS	Jun 23
Sims & Ems	Data generators in progress. Beta release of the meter (IF-021) data generator is available with 3 PPs testing	Further development	MHHS	Ongoing
Migration & Transition	Initial Data Cleanse Plan Technical Groups completed. Further analysis to be completed. Draft plan and findings to be released for industry review in May, ahead of final approval in June 23	Draft document released for industry review Final document released for industry review	MHHS MHHS	03-May-23 Jun-23
Migration & Transition	Reverse Migration Exclusions. Evidence has been collected to support the exclusion of Complex Sites/Shared Metering Points. Formal decision needs to be made to exclude these MPANs	Decision to be made at PSG	MHHS & PSG	Jun-23
Migration & Transition	Migration, Data and Cut-over Strategy drafted, ahead of final document being issued in early May 23	Final document released for industry review	MHHS	03-May-23
Migration & Transition	Migration Model continues to be refined	Updated model to be shared at MWG	MHHS	11-May-23

**Status Summary**

- Code drafting plan has been amended following the round 3 consultation and CCAG direction
- Tranche 1 code artefact consultation closed on 13<sup>th</sup> March. 1,107 comments were received by participants
- Code drafting resource is still required to support transition design
- Tranche 2 code drafting began on 1<sup>st</sup> March with planning and the approach agreed (Registrations & BSC Central Services)

**April Deliverables**

- Triage and action consultation comments from tranche 1
- Share consultation comments and Programme responses with industry
- Present post consultation tranche 1 code artefacts to CDWG
- Continue code drafting of Registrations and BSC Central Services

**Risks**

#	Risk or Issue	Mitigation Plan	RAG
I091	The Work-Off Plan has remaining items which stops code drafting being complete	The design needs to be complete to enable the code drafting to be complete Update: The code replan will take this issue into consideration and plan accordingly.	High Impact
I092	The Design has inconsistencies. The code will either continue the Design inconsistencies or inconsistencies will need to be resolved at the design level	The design needs to be complete to enable the code drafting to be complete Update: The code replan will take this issue into consideration and plan accordingly	High Impact
R053	There is a risk that the programme may not be able to resource adequately against the code draft plan. (Either the programme does not get the resources required in time to start drafting or it does not get the resource to deliver drafting)	The code replan will take this risk into consideration and plan accordingly.	High Risk
R355	There is a risk that Consequential Change solutions are not approved by responsible parties in advance of the associated Code Drafting topics being started	If consequential code changes are not submitted within the code drafting plan timescales (August 2023) Code bodies will miss the consequential code change consultation and can raise a change request to bring the items back into programme scope. The code replan will take this risk into consideration and plan accordingly.	Medium Risk

Drafting Milestones	Target date*	Forecast date	Status
Data Services approved at CCAG	26/4/23	24/5/23	BSC
Metering Services approved at CCAG	26/4/23	24/5/23	REC
			BSC
Interfaces/Data Specification approved at CCAG	28/6/23	13/11/23	Amber
Registration approved at CCAG	28/6/23	23/08/23	Amber
Governance and Qualification approved at CCAG	23/8/23	13/11/23	Amber
BSC Central Services approved at CCAG	23/8/23	14/09/23	Amber
Migration Text approved at CCAG	25/10/23	13/11/23	Amber
Transition Text approved at CCAG	25/10/23	25/01/24	Amber
Topic Area Mop Up approved at CCAG	24/1/24	13/05/24	Amber
Finalise and consistency check approved at CCAG	27/3/24	23/08/24	Amber
Code changes baselined (M6)	4/4/24	23/08/24	Amber
Smart Meters Act powers enabled (M7)	6/12/24	11/11/24	Green
Code changes delivered (M8)	7/3/25	7/3/25	Green

\*dates subject to Replan CR

## Design Advisory Group (DAG)

### Updates from DAG 12 April 2023

- Change Requests:** the DAG looked to make decisions on three Change Requests. The DAG agreed to update and re-issue CR018 to Impact Assessment and to defer the decision on CR017 to be made alongside CR018. The DAG approved CR019.
- Design change management updates:** The Programme presented the revised Change Management process and shared the forward plan for the first Interim Release of updated design artefacts. DAG members provided feedback.

DAG papers available [here](#)

### Upcoming agenda items

- CR017/018 Decision
- DAG ToR refresh
- Ongoing design change management

## Cross-Code Advisory Group (CCAG)

### Update from CCAG 22 March 2023

- Code Drafting Plan:** CCAG received updates on changes to the plan arising both from feedback received following the first code drafting consultation and as part of the Programme Replan. Consultation timeframes will be extended to three weeks, and traceability matrices have been produced showing the level of documentation which may require review in future to assist participants resource planning.
- BSC Issue 101:** BSC provided an overview of the work of this issues group. CCAG were advised the group will produce a solution and recommendation to be included in an SCR-driven modification to the BSC. The Programme are reviewing whether there may be impacts on the DIP technical design
- CDWG Update:** CCAG were given an overview of the first code drafting consultation and forward plan for the CDWG. Over 1,100 comments were received from the majority of participant constituencies.

CCAG papers available [here](#)

### Upcoming agenda items

- Tranche 1 Code drafting
- Preparation for registration consultation
- Ongoing code draft reporting and horizon scanning

## Testing and Migration Advisory Group (TMAG)

### Update from TMAG 19 April 2023

- Migration, Cutover & Data Strategy:** The Programme provided an update on progress to date
- Data Cleanse Plan:** The Programme provided an update on initial findings from the Data Cleanse technical sessions
- MPAN exclusion:** The Programme provided an update on MPAN exclusion for reverse migration
- DBT1 PIT:** The Programme provided an update on DBT1 PIT options
- Placing Reliance Policy update:** The Placing Reliance Policy was provisionally approved, subject to queries by Friday
- CIT & Functional Test Approach and Plan:** The Programme provided an update on the CIT & Functional Test Approach and Plan
- Test Data Approach and Plan:** The Programme provided an update on progress of the Test Data Approach and Plan
- Working group updates** – Updates were provided on activity at the Systems Integration Testing, Qualification and Non-Functional Testing Working Groups

TMAG papers available [here](#)

### Upcoming agenda items

- Data Cleanse Plan
- CIT & Functional Test Approach and Plan
- Test Data Approach and Plan
- Release and Configuration Management Approach
- Migration, Cutover and Data Strategy

### Replan

- The PPC team supported the Programme with confirming any significant changes since the **Replan Consultation 3** to participants.
- Positive feedback from participants was received during bilats regarding the Replan and will improve the certainty of the Programme timeline for them.
- **Next steps:** Continue to answer participant queries about the Replan in bilaterals.

### Monitoring the health of the MVC

- The PPC team are monitoring the engagement with SIT Participation alongside Dom and Simon and boosting the engagement of participants where needed, especially amongst those critical participants.
- Increase discussion of engaging with FTIG during bilaterals.
- **Next Steps:** Discuss documentation that all workstreams can use to manage SIT participation to include who has volunteered, their readiness to participate and which, if any, system that want to carry with them, i.e. software provider.

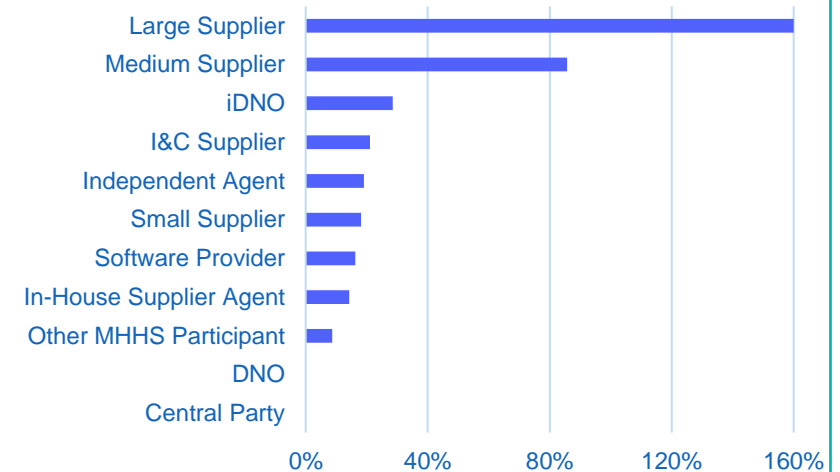

### Communications Channels

- The PPC team supported the Programme with one webinar on Participant Design Assurance Approach on 30 March.
- Dates for next webinar have been set: Code of Connections and PKI Policy (**11 May**) and, Code Consultation webinar (**23 May**).
- **Next steps:** Develop the two upcoming webinars which are on the 11<sup>th</sup> May and on the 23<sup>rd</sup> May. These have both been circulated in the Clock and receiving positive engagement so far.

### Participant Engagement by Constituency

The PPC team held **43** bilateral meetings with Participants this month. The chart below shows the percentage of these Participants in each Constituency that were met.

% Participants met, by Constituency\*

\*figures greater than 100% owing to Participants receiving more than one meeting

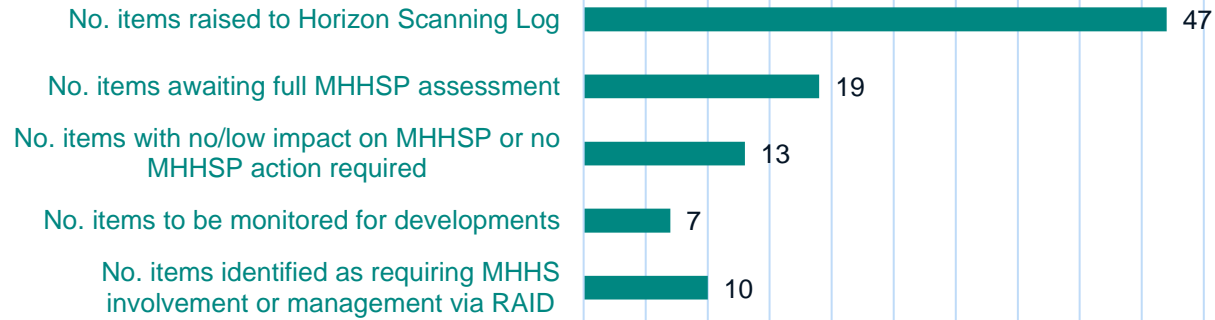

#### Next Steps:

- Handover of Agents from Pete to Alice as Pete rolls off the Programme.

**Industry horizon scanning: Summarise items monitored via the Cross-Code Advisory Group (CCAG) horizon scanning process**

**Horizon scanning metrics**

The following graph summarises items being monitored via the Programme's horizon scanning process

More information can be found via the [CCAG meeting papers](#)

Direct link: [MHHS-DEL387 CCAG Code Change Horizon Scanning Log v1.0](#)

- Industry code changes: 42** – REC: 22, BSC: 8, SEC: 4, DCUSA: 7, CUSC: 1
- Wider industry changes: 5** – HH opt-out, DUoS SCR, code review, microbusiness definition, licence change
- Criticality of horizon scanning items** – High: 4, Medium to High: 3, Medium: 3, Low: 13
- Top RAID linked items:**
  - **SEC MP162** (R0011, R0083, R0113, R0115, R0116, R051, R0182, R0191, D0076, D0077)
  - **BSC CP1558** (R0200, D0068)
  - **REC R0032** (D0068, D0069)
  - **REC R0044** (D0055)

**Horizon Scanning Process**  
The CCAG collaborate to populate the Horizon Scanning Log and the Programme undertakes impact assessment of each change. Where a change requires actions by the Programme beyond simple monitoring or initial definition, this is entered into the Programme RAID framework with an appropriate action plan and owner put in place.

**Dashboard Objective:** To provide PSG with a progress update on in-flight and future planned assurance activities. Assurance themes and agreed actions will be shared with PSG on a quarterly basis with specific Work Package (WP) assurance reports shared in the lead up to key milestones.

## Assurance Activities in Progress / Completed during month

### Theme-Based Assurance

- **Ongoing Embedded Assurance Activities (WP1)** - Monthly cadence of interactions with MHHS to support embedded assurance **Completed** - Summary report of progress against actions raised by IPA shared with Ofgem and SRO.
- **MHHS Programme Plan (WP3)** - Embedded assurance in programme re-plan activity - **In Progress** - Executive summary of final PA Report on re-plan will be shared ahead of June PSG, with full report shared with SRO and Ofgem.
- **Design Documentation (WP4)** - Embedded assurance in design activity - **Completed** - IPA provided feedback on migration design process. **In Progress** - Monitoring actions to progress Data Assurance report findings in Data Working Group and Migration Working Group. Draft ToR for review of activity needed to ensure MPRS readiness.
- **Conflicts of Interest (WP 5)** - **In Progress** - Terms of Reference for forward assurance shared with SRO and Ofgem for feedback.

### Stage-Based Assurance

- **Test Assurance (WP9, 10, 11)** - Embedded assurance in testing activity - **Completed** - LDSO targeted assurance report finalised and shared with Ofgem, SRO and LDSO PSG reps. **In progress** - WP9, 10, 11 Terms of Reference being finalised and delivery being mobilised.

## Upcoming Assurance Activities

- **WP3** - Final report on re-plan artefacts and recommendation to Ofgem and SRO
- **WP9/10/11** - Mobilisation and delivery of this work package
- **Revision of the Independent Programme Assurance Framework and assurance plan** - To be reviewed and updated following baselining of the Programme Re-plan

## Assurance Action Status

Total agreed recommendations made in reports to PSG

# Summary and Next Steps

**INFORMATION:** Summarise actions and decisions.  
Look ahead to next meeting

*Chair and Secretariat*

*5 mins*

## Summary and next steps

1. Confirm actions and decisions from meeting
2. Next PSG meetings:
  - **12 May 2023 09:00 - 09:45** – Extraordinary PSG (CR022 decision)
  - **08 June 2023 10:00 - 12:00** – Regular PSG, moved by one day for Ofgem replan decision (note: face-to-face at Elexon Offices)

### 08 June 2023 agenda items

- MHHS delivery approach
- Decision from Ofgem on Programme Change Request CR022 (TBC)
- SIT MVC Update (TBC)

### Standing items

- Minutes and action review
- Sponsor update
- Delivery dashboards
- Summary and next steps

If you would like to propose an agenda item for the PSG, please contact the PMO at [PMO@mhhsprogramme.co.uk](mailto:PMO@mhhsprogramme.co.uk)

# Appendix 1

- SIT PoaP
- Guidance on PIT Completion / SIT Readiness supporting SIT CIT Start

SIT CIT

30 Oct '23 SIT CI Test Execution 23 Feb '24

SIT Func

11 Mar '24 SIT Functional Start (MVC and Other SIT PPs)

11 Mar '24 - 28 Jun '24 Cycle 1

Defect fix, assurance, data & environments maintenance 1 Jul '24 - 12 Jul '24

15 Jul '24 - 6 Sep '24 Cycle 2

Defect fix, assurance, data & environments maintenance 9 Sep '24 - 20 Sep '24

23 Sep '24 - 18 Oct '24 Cycle 3

Defect fix, assurance, data & environments maintenance 21 Oct '24 - 1 Nov '24

1 Nov '24 CORE SYSTEMS CODE FREEZE

4 Nov '24 - 3 Jan '25 Regression

3 Jan '25 SIT Functional End (MVC)

4 Jan '25 - 4 Apr '25 SIT Other PPs (Contd. Support)

SIT Mig

10 Jun '24 - 4 Oct '24 SIT Migration (MVC)

10 Jun '24 - 4 Apr '25 SIT Migration (Other PPs)

SIT NFT

2 Sep '24 - 3 Jan '25 SIT NFT (MVC)

2 Sep '24 - 4 Apr '25 SIT NFT (Other PPs)

SIT Ops

7 Oct '24 - 24 Jan '25 SIT Ops (MVC)

7 Oct '24 - 4 Apr '25 SIT Ops (Other PPs)

SIT Other PPs Complete 21 Apr '25

LDSOs

15 Jul '24 - 24 Jan '25 MHHS Qualification Testing for Non-SIT LDSOs (Func, Mig, NFT, Ops)

UIT

Non-SIT Testing

4 Nov '24 E2E Sandbox Execution Start

20 Jan '25 Qualification Execution Start

SIT Environments -

SIT Env	SIT Stage(s)	Required By
SIT A	CIT Functional Test	Start of CIT
SIT Staging	Functional Test	Start of Functional Test
SIT B	Migration Test Non-Functional Test Operational Test	Start of Migration Test

Notes -

- Upon successful completion of CIT, no further SIT PP will be added to SIT testing
- SIT Functional will be structured into cycles. Cycle 1 will aim to execute as much coverage as possible and flush out key defects.
- Cycles 2 and 3 will address defect retesting and associated regression testing
- A core systems code freeze is targeted by 1<sup>st</sup> Nov 24, followed by a regression cycle
- The code freeze milestone will trigger the commencement E2E Sandbox Testing
- In the later stages of SIT non-SIT LDSO testing will also be undertaken to support M11
- Completion of regression testing and the MVC SIT Migration, NFT and Operational test stages will trigger Qualification Testing to commence

# PIT Completion / SIT Readiness supporting SIT CIT Start

New guidance on readiness milestones based on the 'Interval' a PP is expected to enter SIT CIT:

SIT CIT Readiness

Activity / Milestone	Notes	CIT Interval 1	CIT Interval 2	CIT Interval 3	CIT Interval 4	CIT Interval 5	CIT Interval 6
<b>SIT CIT Start</b>	<b>CIT Interval 1 Start = PSG Milestone (M9)</b>	<b>30<sup>th</sup> Oct 23</b>	<b>13<sup>th</sup> Nov 23</b>	<b>27<sup>th</sup> Nov 23</b>	<b>11<sup>th</sup> Dec 23</b>	<b>15<sup>th</sup> Jan 24*</b>	<b>29<sup>th</sup> Jan 24</b>
<b>SIT CIT Ready to Start (TMAG Milestone)</b>	TMAG Milestone - 1 week prior to CIT Start for each CIT Interval	23 <sup>rd</sup> Oct 23	6 <sup>th</sup> Nov 23	20 <sup>th</sup> Nov 23	4 <sup>th</sup> Dec 23	8 <sup>th</sup> Jan 24	22 <sup>nd</sup> Jan 24

**Note 1\*** – There is an extended period between CIT Intervals 4 and 5 allowing for the Xmas and New Year period. Some readiness dates have also been adjusted accordingly for CIT Intervals 5 and 6.

**Note 2\*\*** – SI Test Team will agree timelines for prior PIT deliverables with individual SIT PPs in line with their delivery plans, allowing for test assurance activities in the lead up to SIT
