
Programme Steering Group #31

03 April 2024

Agenda

#	Item	Objective	Type	Lead(s)	Time	Page
1	Welcome		-	Chair	10:00-10:05 5 mins	1
2	Minutes and Actions	Approve headline report of previous meeting and review actions	Decision	Chair & Secretariat	10:05-10:15 10 mins	3
3	Qualification Testing Updates	Updates on Qualification Testing from the Programme and Elexon	Information	Elexon (Laura Kennedy), & Programme (Nicola Farley)	10:15-10:25 10 mins	6
4	Migration Update	Programme updates on Migration plan and progress	Information	Programme (Warren Fulton)	10:25-10:35 10 mins	12
5	Programme Reporting	Updates from the Programme on System Integration Testing (SIT)	Information	Programme (Adrian Page)	10:35-10:45 10 mins	14
6	Decision Appeal: Lessons Learned	IPA overview of lessons learned and recommendations on decision appeals	Information	IPA (Richard Shilton)	10:45-10:55 10 mins	18
7	Delivery Dashboards	Questions from PSG members on delivery dashboard content	Information	Chair	10:55-11:05 15 mins	20
8	Summary and Next Steps	Summarise actions and decisions, and look ahead to next meeting	Information	Chair & Secretariat	11:05-11:10 5 mins	55
	Appendix	New Advisory Groups Update				

Minutes and Actions

DECISION: Approve minutes and review actions

Chair & Secretariat

10 mins

Minutes and Actions (1 of 2)

1. Approval of [PSG 06 March 2024 Headline Report](#)
2. Review of actions:

Ref	Action	Owner	Due	Latest Update
PSG18-05	Look into the assurance process for LDSOs for the accuracy of data for DUoS billing	IPA (Richard Shilton)	January 2024	ONGOING REMAINING ITEM: IPA progressing proposed DBT2 assurance activities with Ofgem. Programme elements of action complete. DBT2 assurance is a key MHHS dependency and risk mitigator.
PSG21-05	Programme to discuss with IPA the potential inclusion of IPA test assurance activities alongside programme plan information, to assist participants' view of effort requirements	Programme and IPA	Q1 2024	ONGOING: IPA test assurance activities have been incorporated into the new MHHS Transition Timeline and Implementation Approach. The minor updates include a new swim lane within the PoaP which cover related IPA activities. The updated document is due to be republished following the restructuring of certain SIT preparation activities (Q1 2024 Jan-Mar). In the meantime, participants are encouraged to contact the IPA for a view on any IPA assurance activities.
PSG28-01	Elxon to provide detailed update on the progression of the Settlement Analysis Scoping Working Group (SASWG) outputs.	Elxon (John Abbott)	07/02/2024	ONGOING: Helix update: Focus is on determining what the potential issues to be modeled with regards to potential commercial issues at Go-Live could be. Expect to complete a comprehensive set of scenarios that could be reviewed should pertinent data be available by end April. We will then need to review emerging understanding of actual qualification and migration patterns and some further insight into potentially available data to make worthwhile progress on the goal of clarifying potential unexpected impacts.
PSG29-03	IPA to consider additions or clarifications to the appeals process following the completion of the current CR036 appeal.	IPA (Richard Shilton)	06/03/2024	RECOMMEND CLOSED: See agenda item 6. Lessons learned, and process clarifications / enhancements provided.
PSG30-01	Code Bodies to provide status indicator alongside future updates on qualification activities	Elxon & RECCo	03/04/2024	RECOMMEND CLOSED: . See agenda item 3Status indicator provided. Full update on new qualification milestones and dates proposed in Programme Change Requests 047 & 048 to be provided at April PSG.
PSG30-02	Programme to provide updates on Secondary Routing to the Fast Track Implementation Group	Programme (Adrian Page)	03/04/2024	RECOMMEND CLOSED: Updates provided to FTIG. Further regular updates to be provided to FTIG as required.

Minutes and Actions (2 of 2)

Ref	Action	Owner	Due	Latest Update
PSG30-03	Programme to consider whether membership of Programme Change Board should be expanded to include constituency representation	Programme (PMO)	03/04/2024	RECOMMEND CLOSED: The programme would propose to keep the Change Board internal this helps to maintain efficiency and ensure engagement had with industry participants are not, in large, replicated at the Change Board. IPA attend each meeting to ensure the process and decision-making is being made in accordance with the governance framework. The change raiser is invited as an external participant to present their change request and will be asked to provide an overview of the level of engagement with industry at that point. The industry webinar provides PPs a direct line into the Programme and Change Raiser to ask any questions they may have, or seek clarification. This position is aligned with the MHHS Governance Framework section 3.2 regarding ensuring the Programme governance structure is ' <i>efficient and streamlined...including supporting rapid decision-making...</i> '.
PSG30-04	Programme to map Change Request scenarios to understand the types of changes which may arise and their suitability for ratification by the PSG	Programme (PMO)	03/04/2024	RECOMMEND CLOSED: The updated Change Control process, which will be published as part of the Programme Change Request to update the Change Control documentation, will include a Change Request development stage, in which Change Raisers are guided to the appropriate Advisory and Working Groups, to ensure that the necessary SMEs are included in the drafting and submission of a Change Request, ahead of its approval via the Change Board and PSG.
PSG30-05	Ofgem to advise whether changes to the Change Control Approach require Ofgem approval	Ofgem	03/04/2024	RECOMMEND CLOSED: Update to be provided in meeting.
PSG30-06	Programme to consider whether a more frequent PSG should be scheduled for the ratification of Programme Change Requests, to assist timely progression	Programme (PMO)	03/04/2024	RECOMMEND CLOSED: Due to the Programme Change Freeze, it should not be necessary to schedule more regular PSG meetings for the ratification of Change Request approval decisions. If a Change Request requires an expedited decision, an extraordinary PSG can be called.
PSG30-07	Programme to ensure Core Capability Provider risks and issues provided in Delivery Dashboards are discussed in bilateral account management meetings	Programme	03/04/2024	RECOMMEND CLOSED: Discussion of risks and issues are undertaken as part of regular account management meetings. Additionally, Programme account managers review Delivery Dashboards on receipt and raise queries as required.

Qualification Testing Updates

INFORMATION: Updates on Qualification Testing from the Programme and Elexon

*Elexon (Laura Kennedy),
& Programme (Nicola Farley)*

10 mins

Overall Qualification:

- Qualification Approach & Plan v2 including Annex 1 and 4 approved at QAG
- Qualification Approach & Plan v2 including Annex 1 and 4 being presented at BSC and REC PAB for approval
- Version 1 of the Qualification Assessment Document being presented at BSC and REC PAB for approval
- CR47 and CR48 to realign baselined Programme Plan to working plan for Qualification (incl. Non-SIT LDSO)
- Preparation underway for the Open Day on 23/04.

Non-SIT Supplier & Agent Qualification:

- Qualification Approach & Plan Annex 2 Non-SIT Supplier & Agent Test Approach out for consultation (closes 5/4)
- Initial Batch of Non-SIT Supplier & Agent QT Test Scenarios out for consultation (closes 5/4) and walkthrough held (25/03).
- Three Pre-Qualification Submission support sessions have been scheduled to allow Non-SIT Suppliers, Agents and new entrant iDNOs (that expect to enter the market after M10) to ask any questions related to their PQS ahead of the deadline of 26/04.

Non-SIT LDSO Qualification:

- Session to discuss high level QT test scope have started to take place with individual LDSO. All sessions should be completed by mid-April.
- Non-SIT LDSO QT Test Data Plan due out for consultation on 28 March.

Qualification Deliverable milestones - 2024

Milestone ID	Task Name	Baseline Date in Programme Plan	Date as per CR48*	Status
T3-QU-0063	Functional Testing elements of Qualification Approach & Plan v2 approved by REC Manager & BSC PAB	31/10/2023	28/03/2024	Qualification Approach & Plan v2 approved at March QAG. Being presented at REC PAB and BSC PAB for approval w/c 25/03.
T3-QU-0064	Migration Testing elements of Qualification Approach & Plan v2 approved by REC PAB & BSC PAB	06/03/2024	28/03/2024	Qualification Approach & Plan v2 approved at March QAG. Being presented at REC PAB and BSC PAB for approval w/c 25/03.
T3-QU-0066	Qualification Assessment Document v1 approved by REC PAB and BSC PAB	16/04/2024	28/03/2024	Qualification Assessment Document v1 approved at March QAG. Being presented at REC PAB and BSC PAB for approval w/c 25/03.
T3-QU-0065	Non-Functional Testing elements of Qualification Approach & Plan v3 approved by REC PAB & BSC PAB	30/05/2024	27/06/2024	On track, update to be completed once SIT Non-Functional Approach and Plan published.
T3-QU-0068	Operational Testing elements of Qualification Approach & Plan v4 approved by REC PAB & BSC PAB	14/08/2024	29/08/2024	On track, update to be completed once SIT Operational Approach and Plan published.
T3-QU-0062	Final Qualification Approach & Plan v4 approved by REC PAB & BSC PAB	14/08/2024	29/08/2024	On track.
T3-QU-0067	Qualification Assessment Document v2 approved by REC PAB and BSC PAB	25/10/2024	29/08/2024	At risk of slippage due to dependency on SIT Non-Functional and Operational Test Scenarios and Test Cases.

Qualification Wave (Non-SIT Suppliers and Agents) milestones - 2024

Milestone ID	Task Name	Baseline Date in Programme Plan	Date as per CR48*	Status
T3 TBC	Pre-Qualification Submission and PIT Test Plan Deadline for Submission	New	26/04/2024	On track, Qualification Wave Participants due to submit PQS by 26/04/24. Webinar held and drop in sessions set up to support completion, alongside update of PIT Guidance.
T3-QU-0012	Confirmation of participant Qualification Wave allocation	08/06/2024	28/06/2024	On track, dependency on PQS being received from Qualification Wave Participants by 26/04.
T3-QU-0017	Qualification Wave 1 Participants' have started DIP Onboarding	04/11/2024	01/11/2024	On track
T3 TBC	Qualification Wave 1 Participants to provide status of PIT completion and submit QT Test Plan	New	29/11/2024	New milestone added to support participant planning.
T3 TBC	Qualification Wave 1 Participants have submitted PIT Test Completion Report and evidence for QT Entry	New	20/12/2024	New milestone added to support participant planning.
T3-QU-0016	Qualification Test Plans for Wave 1 Participants approved	04/11/2024	20/12/2024	On track.
T3 TBC	Qualification Wave 1 Participants have submitted their Initial QAD	New	20/12/2024	New milestone added to support participant planning.

Qualification Non-SIT LDSO QT milestones – 2024 (1/2)

Milestone ID	Task Name	Baseline Date in Programme Plan	Date as per CR47*	Status
T3-QU-0011	Confirmation of participants for Non-SIT LDSO Qualification Testing	15/02/24	18/04/2024	Milestone approved at March's QAG
T3	Non-SIT LDSO QT Test Data Plan Approved by QAG	New	26/04/2024	Non-SIT LDSO QT Test Data Plan due to be sent for consultation w/c 25 March. Approval likely to be May QAG rather than April to allow for time to respond to consultation feedback.
T3	Non-SIT LDSO submission of PIT Approach and Plan (functional and migration)	New	26/04/2024	Update PIT guidance shared and additional session to be scheduled.
T3	Non-SIT LDSO submission of PIT Approach and Plan (non-functional and operational)	New	14/06/2024	Annex 1 to be updated with non-functional and scheduled to be issued for consultation in April.
T3	Batch 1-3 Non-SIT LDSO QT Functional Test Scenarios and Test Cases approved	New	18/04/2024	LDSOs have submitted feedback on Batch 1 and Batch 2 of the test scenarios and test cases. This feedback is being incorporated. Batch 3 has been reviewed with Code Bodies and with LDSO review held 28 March.
T3	Non-SIT LDOS QT Non-Functional, Operational and Migration Test Scenarios and Test Cases approved	New	18/07/2024	Annex 1 to be updated with non-functional and scheduled to be issued for consultation in April.
T3	Non- SIT LDSO submission deadline for final PIT Test Completion Report (Non-Functional and Operational and agreed functional scope)	New	30/09/2024	New milestone added to support participant planning

Qualification Non-SIT LDSO QT milestones – 2024 (2/2)

Milestone ID	Task Name	Baseline Date in Programme Plan	Date as per CR47*	Status
T3-QU-0008	Qualification Testing for Non-SIT LDSOs (Functional, Migration, NFT, Operational) Test execution schedule approved	15/05/2024	15/08/2024	Tracking red against programme plan baseline. Tracking green against new plan dates (CR47).
T3-QU-0009	Qualification Testing for Non-SIT LDSOs Participants' environments)Ready to start DIP onboarding (incl. certificates and security compliance)	15/05/2024	05/08/2024	Tracking red against programme plan baseline. Tracking green against new plan dates (CR47).
T3 TBC	MHHSP/Code Bodies approval of non-SIT LDSO QT participants test plans	New	20/06/2024	On track – conversations ongoing on high level test scope
T3-QU-0007	Qualification Testing for Non-SIT LDSOs (Functional, Migration, NFT, Operational) Programme Test Readiness confirmed	24/07/2024	30/09/2024	Tracking red against programme plan baseline. Tracking green against new plan dates (CR47).
T3 TBC	Non-SIT LDSO QT participant Test Environments connection confirmed to UIT environment	New	18/09/2024	On track
T2 TBC	Non-SIT LDSOs Qualification Testing Participants (Functional, Migration, NFT, Operational) Test Readiness confirmed (Final Test Readiness Review for LDSO)	New	30/09/2024	On track
T3 TBC	Non-SIT LDSO QT Participants have submitted their initial QAD	New	10/10/2024	On track
T3 TBC	Non-SIT LDSOs submission deadline for their QT Test Completion Report to MHHS Programme	New	20/12/2024	On track
T3-QU-0010	Qualification Testing for Non-SIT LDSOs (Functional, Migration, NFT, Operational) 1 End	24/01/2025	24/01/2025	On track

Migration Update

INFORMATION: Programme updates on Migration plan

Programme (Warren Fulton)

10 mins

Migration Framework consultation

- Consultation 1 was issued on 18 March 2024
- The schedule for Consultation 2 will be shared at the April 2024 MCAG meeting

Consultation	Areas covered	Consultation start	Consultation end	Issue comment responses and updated artefacts	Assurance meeting	Target MCAG approval
1	Principles, processes, controls, roles, responsibilities and decision-making authority required for: <ul style="list-style-type: none"> • Developing and initialising the Migration Schedule • Maintaining the Migration Schedule 	18 Mar 2024	8 Apr 2024	19 Apr 2024	26 Apr 2024	8 May 2024
2	Principles, processes, controls, roles, responsibilities and decision-making authority required for: <ul style="list-style-type: none"> • Controlling and monitoring Migration Execution • Managing unused capacity allocation • Managing data analytics and reporting • Closing-down Migration 	Q2 2024	TBC	TBC	TBC	TBC
3	Contingency	TBC	TBC	TBC	TBC	TBC

Programme Reporting

INFORMATION: Updates from the Programme on System Integration Testing (SIT)

Programme (Keith Clark & Adrian Page)

10 mins

CIT

- Overall Programme CIT Completion report approved at SITAG 11-Mar
- Programme witnessed secondary routing and performed confidence tests (pre SIT Functional start). Update provided to FTIG on testing performed – no queries raised

SIT Functional

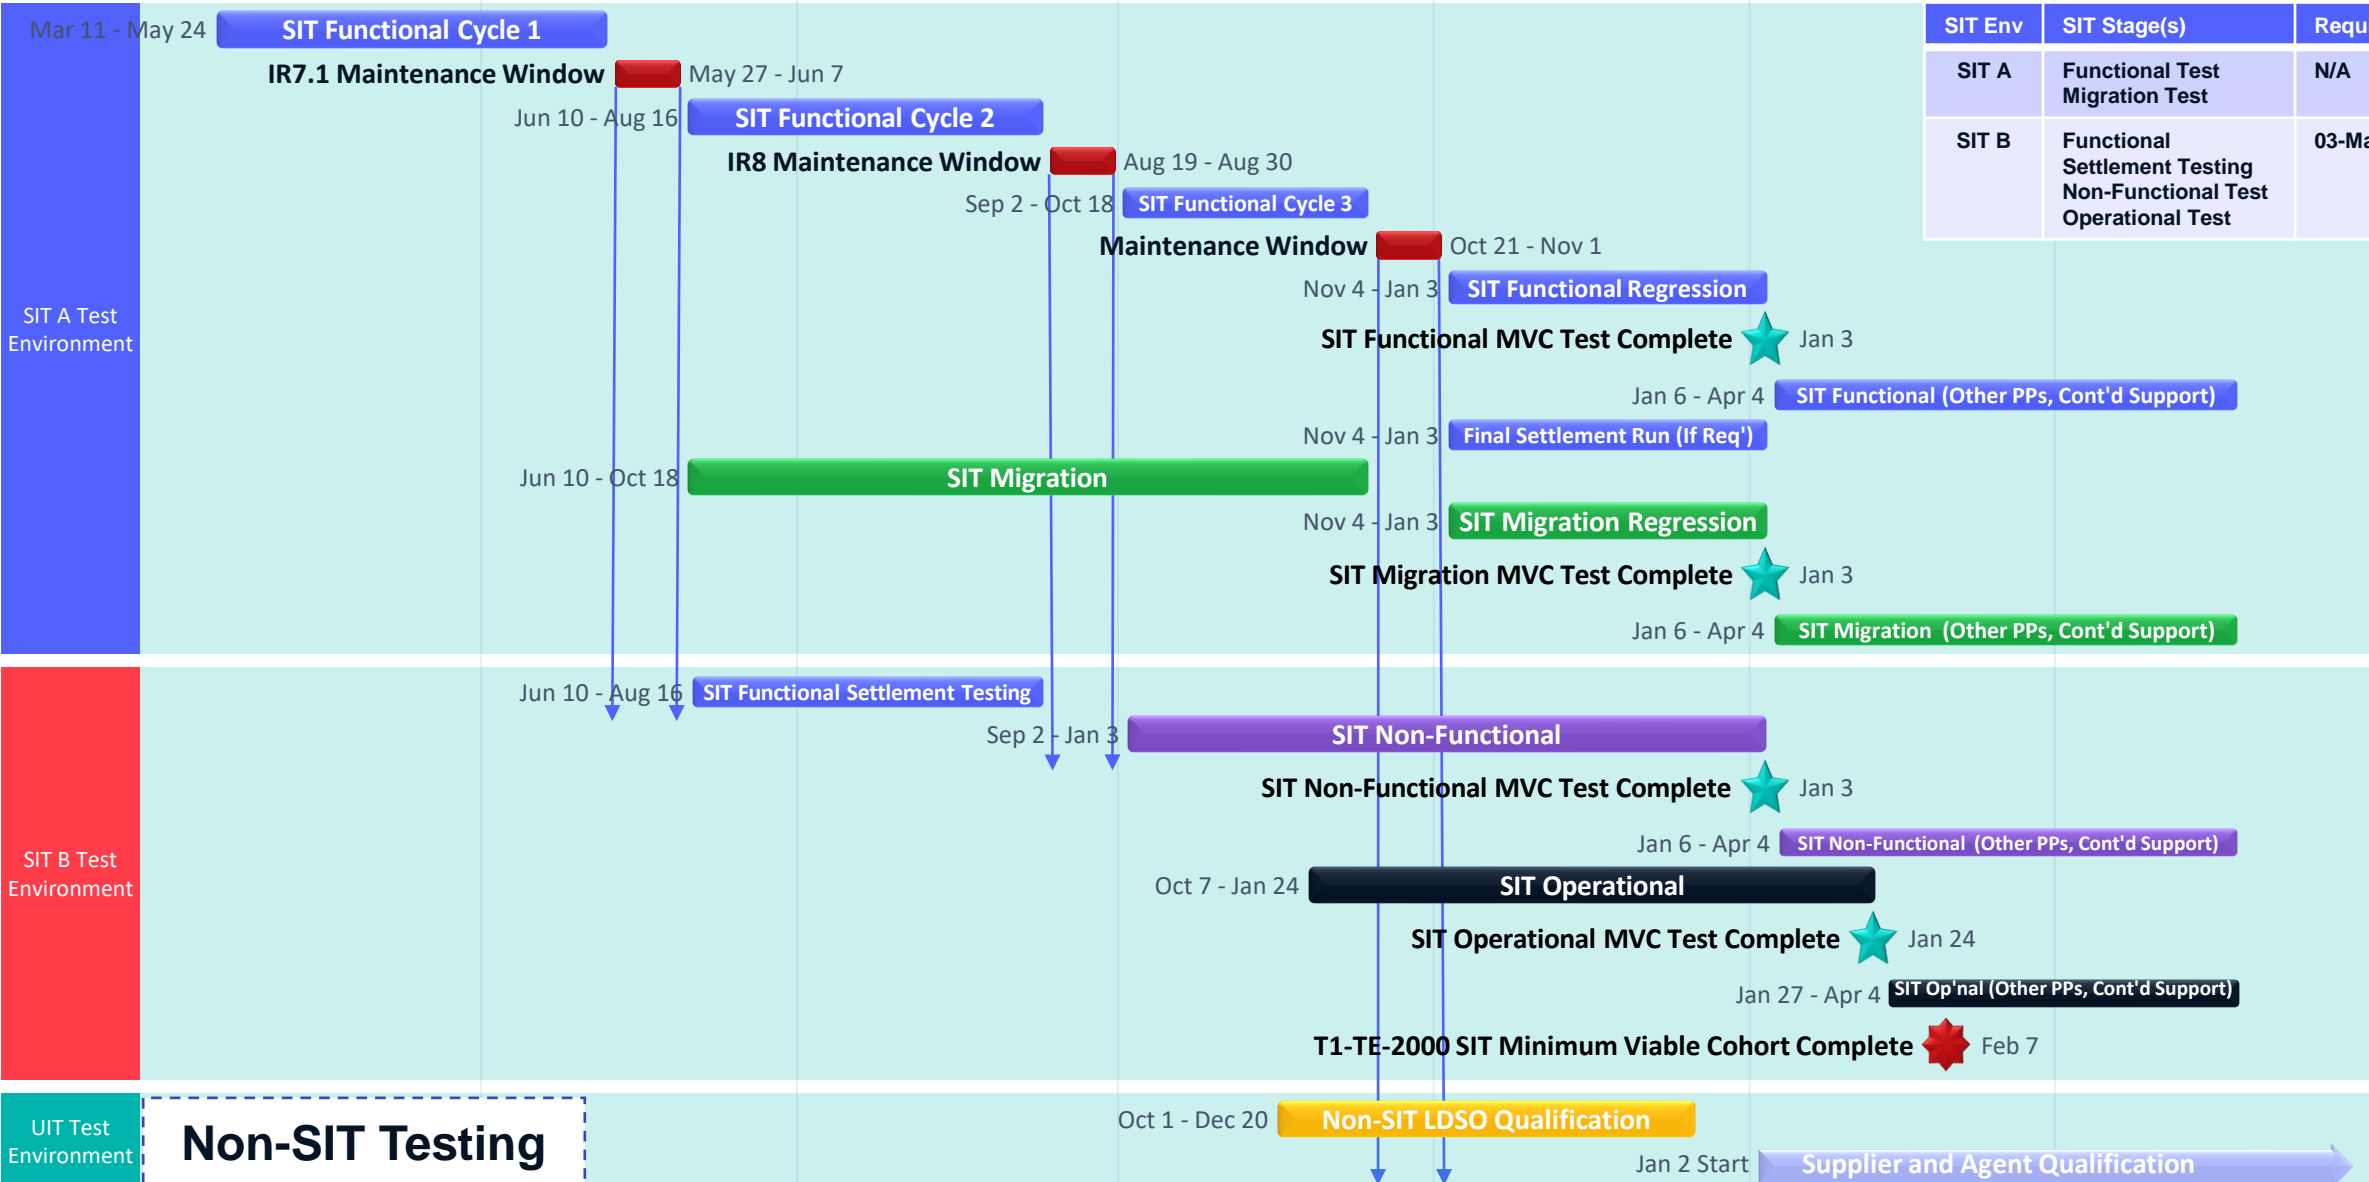

- Cycle 1 test execution commenced as forecast 11-Mar-24 for 4 cohorts, 2 further cohorts started later that week and remaining 2 cohorts started 25-Mar
- Only remaining SIT Functional preparation work off items are the agreed, late start of some PPs – monitored at FTIG; cohorts progress is not impacted provided these dates are met
- Progress is steady - as expected given uplift from IR2 to IR5
- MI reporting being provided to Cohorts (PPs + CCPs) - summary on subsequent slide
- Cycle 2 inc Settlement testing readiness in progress (starts 10-Jun) - note change to SIT environments agreed with FTIG and data requirements being agreed with DWG (04-Apr)

SIT Migration

- Starts 10-Jun-24 on IR7.1 in SITA environment
- Some PP test artefacts overdue – parties chased and flagged at FTIG
- Test Scenarios - theme 1 approved at SITAG 20-Mar-24, Theme 2 & 3 on track for April SITAG approval
- Data under development, data load plan to be communicated at next DWG (04-Apr)
- Placing Reliance submission required by 10-Apr
- PIT completion 10-May

Other SIT Stages

- Non-Functional - Approach & Plan issued for consultation 18-Mar-24, Data Approach & Plans to be issued 26-Mar-24. Test Scenarios and cases development approach in progress
- Operational – Approach & Plans (inc Data) being issued for consultation 27-Mar-24. Test Scenarios and cases development approach in progress

SIT Env	SIT Stage(s)	Required By
SIT A	Functional Test Migration Test	N/A
SIT B	Functional Settlement Testing Non-Functional Test Operational Test	03-May-24

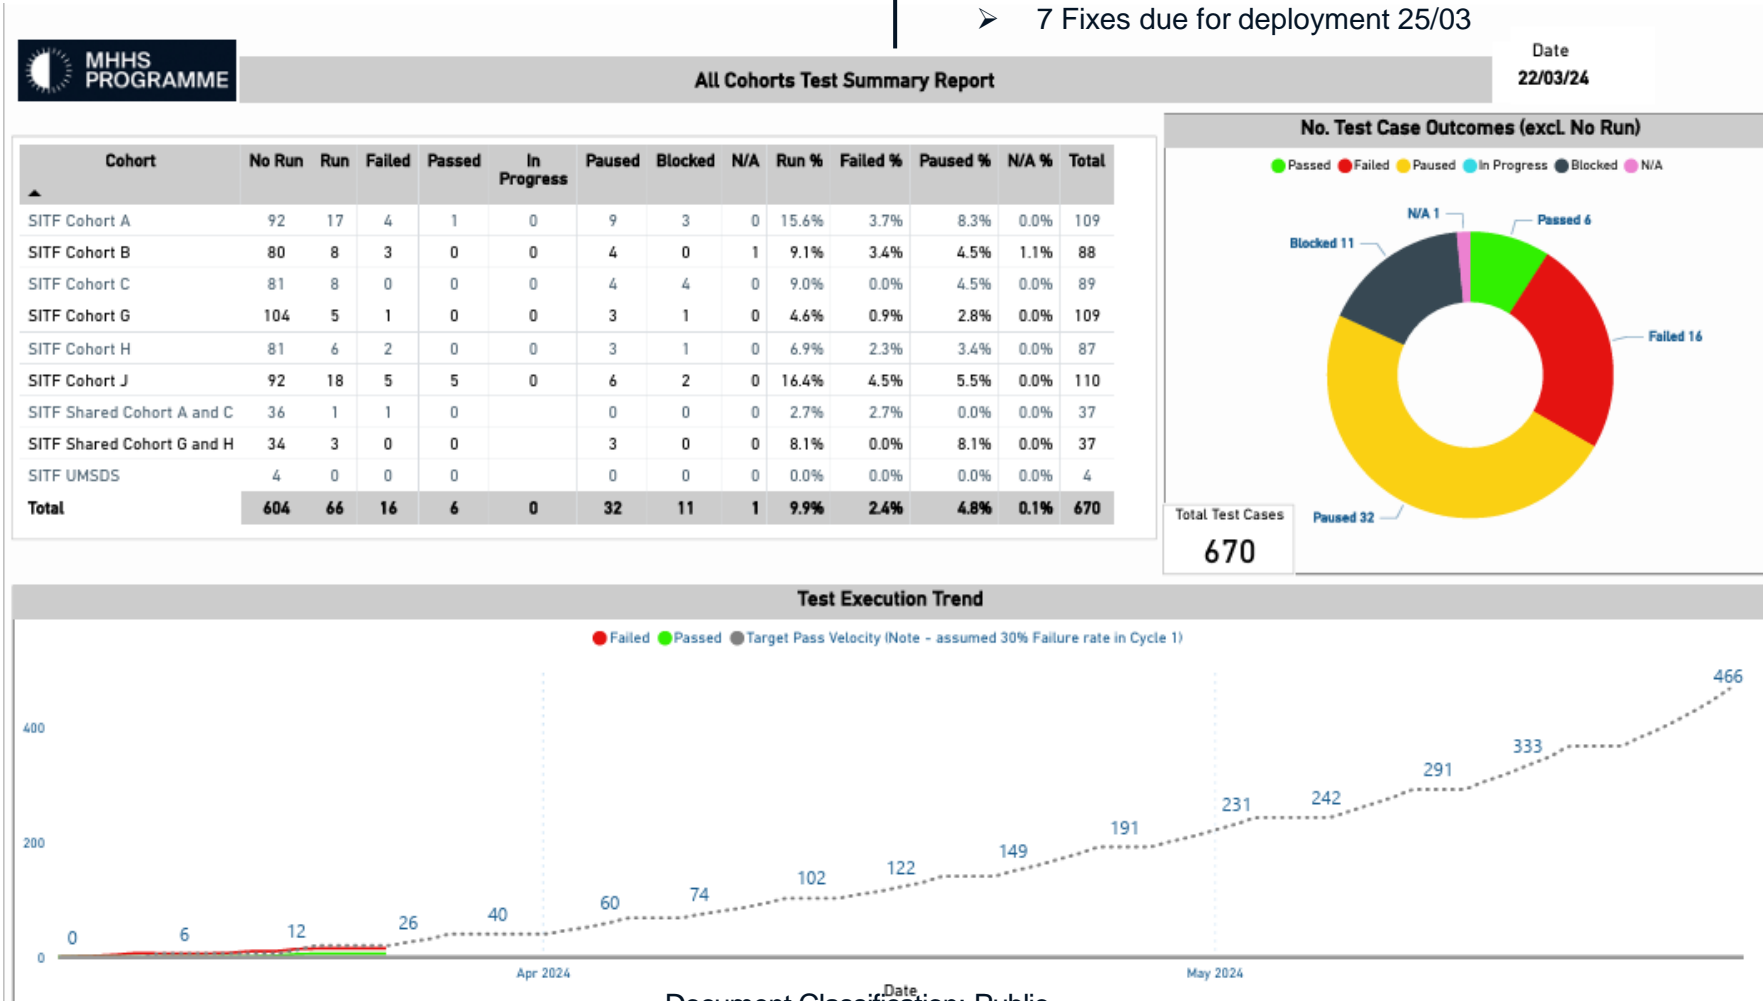

SIT Functional Status Summary (as of 22-Mar-2024, will update for meeting)

The following Cohorts are in progress:

- ✓ Cohort A, B, C, G, H, J
- ✓ Paired Cohorts A & C, G & H

Outlook for next week:

- Cohorts E and F due to commence 25/03
- Paired A, G & J UMSDS testing due to commence
- 7 Fixes due for deployment 25/03

Decision Appeal: Lessons Learned

INFORMATION:

IPA (Richard Shilton)

10 mins

Following the first use of the Decision Appeal process, the **IPA has conducted a lessons learned exercise** over the process and identified and number of clarifications/enhancements. Following review at PSG, the next step will be to update the decision appeal process accordingly.

	Lessons Learned	Process Clarifications / Enhancements
Appeal initiation	Every effort should be made to resolve the issue through programme governance and an appeal to the IPA should be viewed as a mechanism of last resort	<ul style="list-style-type: none"> Issues should be escalated through Programme governance, as appropriate, prior to an appeal being raised with the IPA IPA to triage the appeal submission on receipt to validate there are sufficient grounds (and evidence) for raising the appeal before initiating the review
Timeliness	A rapid decision is crucial to remove any delivery uncertainty for industry and limit the risk of delay to the Programme.	<ul style="list-style-type: none"> 2 week window to raise <u>any</u> appeals over a decision following ratification of the the original decision through Programme Governance The IPA to provide an indicative decision at the earliest opportunity with fuller details and rationale to follow once finalised
Transparency and Decision Making	Greater transparency is required by Participants to enable them to understand any impacts and clarity is required on the decision making process following our appeal.	<ul style="list-style-type: none"> On receipt of an appeal, IPA will inform PSG that it has been received and the timeline for completing review, Details of the appeal will be shared, as agreed with the appeal raiser, taking into account any confidentiality considerations The IPA will clearly set out the rationale for their recommendation and share this with PSG/industry accordingly Our recommendation will be provided to the SRO for decision or to Ofgem if decision breaches the prescribed Ofgem thresholds
Industry engagement	Where a recommendation from a decision may impact other Participants this needs to be considered and discussed accordingly	<ul style="list-style-type: none"> On initial receipt of a decision appeal, convene a small industry representative group to identify which Participants may be impacted by the decision appeal outcome to inform IPA review activities [constituency of this group to be discussed]

Delivery Dashboards

INFORMATION: Questions from PSG members on delivery dashboard content

Chair

15 mins

Delivery Dashboards Overview

Area	Title	Purpose
MHHSP Programme Status	Risk Themes	Provide a high-level view of Programme Risks
	Change Control	Update on the status of Change Requests
Industry Delivery Status	SIT MVC Status	Provide the status of SIT participants
	SIT Stage Statuses	Provide status of SIT stages
	Core Capability Provider Delivery Reports	Provide an overview of Helix, DIP, St Clements, RECCo, DCC and ElectraLink delivery plans and progress against them
	LDSO Delivery Updates	Provide the combined status and progress of LDSO delivery (DNOs and iDNOs)
	Central Party Finances	Provide high level Central Party budgets and expenditure
MHHSP Workstream Activity	SI Workstream Update	Update on activity and progress in the Design Management, Testing and Transition workstreams
	Fast Track Implementation Group (FTIG) Update	Update on the progress of FTIG
	Code Drafting Status	Update on the progress of Code Drafting against the Code Draft plan
	Level 3 Advisory Group Updates	Update on key discussion items and outcomes from recent Level 3 Advisory Groups and provide a forward look of agenda items
Assurance	PPC Activity	Provide information on PPC activity and participant engagement – includes a summary from the recent open day
	Industry Change	Summarise items raised to the Programme horizon scanning process
	Independent Programme Assurance (IPA)	Provide a progress update on in-flight and planned assurance activities

Risk theme 1: Risks to SIT Functional Execution

RAID (1 of 4)
Updated to 03/04/2024

Theme	Summary	Mitigation Approach Overview	RAG Status	
Risks to SIT Execution	The theme explores the factors which may affect the Programme being able to complete SIT within the planned duration	<ul style="list-style-type: none"> Continuous monitoring of the MVC (through SIT CIT) to ensure that the MVC remains viable Maintenance of pairing relationships via go-live cohorts, to enable better programme decisions based on risks / clarity on ways of working that enable SIT parties to work effectively, transparent and fairly with the programme to complete SIT in an optimum way 	Previous RAG	New slide
			Current RAG	Yellow (10 risks)

Key Risks																																
Risk ID	Risk Description	Risk Score Assessment																												Current score movement since last PSG	Mitigation Plan	
		Critical					High					Medium					Low															
		30	29	28	27	26	25	24	23	22	21	20	19	18	17	16	15	14	13	12	11	10	9	8	7	6	5	4	3			2
R803	There is a risk that triage / defect management is not effective in equitably addressing priorities and ensuring optimum execution progress																														Score remains at 16	1. Encourage ownership of testing success within each cohort, to supplement and enhance the programme team's overall co-ordination of testing activities 2. Manage the balance of MVC progress (prove the E2E design) vs. cohort progress (risks to migration)
R804	There is a risk that there could be different interpretations of the Design																														Score remains at 20	1. The design team will be actively involved in the triage of defects (daily defect management calls) during SIT to help to mitigate different interpretations of the design, whilst avoiding unnecessary design change.
I168	There is an issue that two PPs have not entered SIT F on the planned start 11-Mar																														New item (Score 2)	1. Monitor late PIT activities closely. Drive to ensure revised readiness dates are achieved.

Risk Theme 3: Commencing and completing Migration successfully

RAID (3 of 4)
Updated to 03/04/2024

Theme	Summary	Mitigation Approach Overview	RAG Status	
Commencing and completing Migration successfully	The theme explores the factors which may affect the Programme meeting M10 / M11 and completing Migration and how the Programme is planning to mitigate these to stop these risks from becoming issues	<ul style="list-style-type: none"> Some of the existing risk factors around M10 / M11 will be mitigated by the findings throughout SIT Testing, which will evaluate assumptions, highlight to the Programme the areas which require attention and allow the Programme enough time to make the changes necessary for M10 / M11 success The Migration Design, the Migration Cutover & Data Strategy, the Data Cleanse Plan, the Migration Thresholds Document, Cutover Plan and Early Life Model and ongoing Code Drafting will provide Participants necessary materials to prepare for M10 / M11. 	Previous RAG	Yellow (36 Items)
			Current RAG	Yellow (37 Items)

Risk ID	Risk Description	Key Risks																Current score movement since last Programme Board	Mitigation Plan														
		Risk Score Assessment																															
		Critical				High				Medium				Low																			
		30	29	28	27	26	25	24	23	22	21	20	19	18	17	16	15	14	13	12	11	10	9	8	7	6	5	4	3	2	1		
R663	There is a risk that those large Supplier Agents, who support multiple large Suppliers, will not be able to support planned migration volumes due to operational or technical constraints																															Score remains at 18	<ol style="list-style-type: none"> Large Agents have invested in infrastructure (e.g. IT hardware and operating systems) capable of supporting NFR volumes. Large Agents have operational plans and resources in place to manage migration volumes. Suppliers have commercial contingencies in place to manage performance issues of Large Agents. SRO will perform oversight when validating supplier plans.
R488	There is a risk that a significant volume of export MPANs created within Programme transition timescales will impact the ability of suppliers and DNOs to deliver Programme Migration																															New item	<ol style="list-style-type: none"> Programme to engage Ofgem to clarify what existing obligations mean for Programme and Parties Licence consultation closed on 13/3/2024. Await findings to ascertain way forward
R560	There is a risk that a small number of data services will be contracted to most SIT suppliers, limiting ability of that service to deliver Migration volumes to forecasted plan																															Score remains at 16	<ol style="list-style-type: none"> Non-functional requirement testing to be considered for data services (volume testing) Suppliers contract with other data services if there are any issues highlighted by data services themselves, or by NFR testing (Mitigation1)
R753	There is a risk that if the MHHS Service Design and build phases are not completed by Elexon at pace, the required service management processes will not be ready to test within the SIT Operational testing phase in October 2024.																															Score remains at 18	<ol style="list-style-type: none"> Elexon's Helix programme have mobilised a team and commenced work of the detailed Service Design Governance route for industry approval of detailed Service Design needs to be agreed between MHHS and Elexon Programme currently engaging with Elexon to monitor progress.
R828	There is a risk that Suppliers initiate more migrations than planned, or exceed the Threshold volumes																															New item	<ol style="list-style-type: none"> Incorporate planning of when messages will be sent into the design of the MCC.

Risk theme 4: Readiness and Prep for Technical Go-Live (M10)

RAID (4 of 4)
Updated to 03/04/2024

Theme	Summary	Mitigation Approach Overview	RAG Status	
Readiness and Prep for Technical Go-Live	This theme explores the risks to Central Systems being ready to operate within the new MHHS arrangements at M10. It looks at the activities that need to be completed in order for Participants to successfully operate within the new arrangements.	<ul style="list-style-type: none"> Service Management Strategy has been signed off, enabling Elexon to progress with the detailed Service Design Data Cleanse Plan has been developed and circulated, ongoing support and assurance provided by the Programme to ensure progress is being made by participants. Continuous monitoring of risks through discussion in the DCWG and TORWG 	Previous RAG	New slide
			Current RAG	Yellow (12 risks)

Key Risks																																
Risk ID	Risk Description	Risk Score Assessment																				Current score movement since last PSG	Mitigation Plan									
		Critical					High					Medium					Low															
		30	29	28	27	26	25	24	23	22	21	20	19	18	17	16	15	14	13	12	11			10	9	8	7	6	5	4	3	2
R770	There is a risk that Elexon (Helix) may not be ready at M10 to go live																														New item	<ol style="list-style-type: none"> Transition workstream to be mobilised within Helix to focus on Service Design, E2E Testing and Operational Readiness, directly supported by Claire Silk from the MHHS Programme. Service Management Strategy has been delivered to Elexon and required programme support provided to remove any blockers to delivery of the detailed Service Design. Minimum scope for Non-Functional and Operational Testing to be agreed with Elexon DIP Transition plan to be agreed with Elexon and aligned with Design handover plan to ensure adequate governance and change control around MHHS technical architecture Success criteria for operational readiness to be agreed with Elexon
R427	There is a risk that new MHHS data won't be populated prior to M10. Failure to populate the data for each MPAN will impact migration																														New item	<ol style="list-style-type: none"> Individual participants fulfilling their objectives in the Data Cleanse Plan. Programme to monitor and assure progress by participants vs the Data Cleanse Plan through the DCWG.

CR044	Implementation of 'Data Refresh' Message IF-051	Sean Cooper, MHHS Programme	Full Impact Assessment	Issued by DAG to Impact Assessment (response deadline 28-Mar-24)	Open	Impact Assessment			
CR045	Supply Start Date (SSD) Correction Tool	Sean Cooper, MHHS Programme on behalf of SCS	Full Impact Assessment	Issued by DAG to Impact Assessment (response deadline 28-Mar-24)	Open	Impact Assessment			
CR046	Enabling Metering Point Energy Flow to be changed more than once	Harriet Truss, RECCo	Full Impact Assessment	Issued by DAG to Impact Assessment (response deadline 28-Mar-24)	Open	Impact Assessment			
CR047	Amending Qualification Milestones for non-SIT LDSO QT	Ben Wickins, MHHS Programme	Full Impact Assessment	Validated by Change Board for industry webinar and Impact Assessment (12-Mar-24)	Open	Pre-Impact Assessment			
CR048	Amending Qualification Milestones for Non-SIT Supplier and Agent QT	Laura Kennedy, Credera	Full Impact Assessment	Validated by Change Board for industry webinar and Impact Assessment (12-Mar-24)	Open	Pre-Impact Assessment			

This slide captures Change Requests raised in the last three months. A full record of all MHHS Change Requests can be found on the [Change Control page of the Collaboration Base](#)

SIT Stage Statuses (as of 21-Mar-24)

SIT Stage Readiness Key – Outlook to reach and progress through each Stage

On track per programme plan

Expected to meet programme plan if risk mitigation is successful

Unlikely to comply with programme plan

Test Stage	RAG	Comment
CIT		SITAG approved the CIT completion report 11-Mar-24
Functional		<p>Cycle 1 test execution commenced as planned on 11-Mar-24 for 4 cohorts + 2 cohorts later that week + 2 cohorts planned for 25-Mar-24</p> <p>Work off Plan remains in progress:</p> <ul style="list-style-type: none"> SIT F PIT – 32 of 36 reports received, 4 will be provided later than 21-Mar by agreement with the programme. Reviews ongoing - 30 assured, 2 final updates. Completion dictated by provision of remaining reports Environments – Remains in progress, 3 code deployments remain outstanding – completion expected for PP's by their SIT Functional start <p>Preparation under way for Cycle 2 (starts 10-Jun-24)</p>
Migration		<p>Test execution commences: 10-Jun-24 in SITA Test Environment</p> <p>Test Approach (plus associated Test Data) Approach and Plans: approved Dec TMAG</p> <p>Test Scenarios & Test Cases: Theme 1 – SITAG approved 20-Mar, Theme 2 completed Industry Consultation, Theme 3 commenced Industry Consultation 13-Mar</p> <p>PP Test artefacts outstanding: 4 A+Ps, 19, RTTMs and 20 Test Scenarios</p> <p>Assurance in progress</p> <p>Data under development, data load plan to be communicated at next DWG (04-Apr)</p> <p>Placing reliance due 10-Apr</p> <p>PIT completion 10-May</p> <p>Note – Migration Design complete and follows existing Business Processes with relevant deviations to enact migration. Migration Testing will therefore follow SIT Functional Testing with relevant deviations</p>
Non-Functional		<p>Test execution commences: 02-Sep-24</p> <p>Test Approach and Plan: Industry Consultation started 18-Mar, SITAG approval 15-May</p> <p>Test Approach Data Approach and Plans: Industry Consultation due to start on 26-Mar, SITAG approval 15-May</p> <p>Test Scenarios & Test Cases: Delivery plans to be shared and agreed, forecast approval by Jul 24</p>
Operational		<p>Test execution commences: 07-Oct-24</p> <p>Test Approach (plus associated Test Data) Approach and Plans: Planned – Industry Consultation due to start 27-Mar, SITAG approval 15-May</p> <p>Test Scenarios & Test Cases: Delivery plans to be shared and agreed, forecast approval July 24 (Test Scenarios) and August 24 (Test Cases)</p>

SIT – MVC Status (as of 21-Mar-24)

-----------------------------	--	--

Party Milestones & Deliverables	Original or Baseline Date	Forecast date & RAG
MPRS ready for start of functional SIT	14-02-24	06-11-23
MPRS ready for start of migration SIT	01-06-24	01-06-24

Risk or Issue & RAG	Mitigating or resolving action required	Date to be resolved	Action owner
STCI11 – ISSUE - The significant overrun of CIT interval 2 testing impacting subsequent test phases	The programme has reduced the scope of CIT tests but has not addressed the time lost, 'borrowed' from future test phases (UAT/CIT interval 6/functional SIT). Whilst Parties are looking at how they can accommodate such increasing Programme demands, the Programme must consider the parties having to commit significantly more time than planned and its impact on future programme milestones. Update: DNOs are providing funding to support increasing the size of the MPRS test team. This is quadrupling the size of the test team since the plan was baselined (CR022)	28/02/2024	Programme
STCR18 - The programme plan is challenging and SCS has been consistent in its feedback to the programme. There is insufficient time to complete the testing of all functionality to the normal SCS quality standards to meet the entry points for CIT/ FSIT/Migration SIT	St Clements is focused on delivering the functionality that is required, for when it is required by concentrating on the testing required to meet the programme timelines. 'Full' testing will be completed later in the programme	Q1 2024	St Clements
STCR14 - BAU issues divert resource from MHHS programme (such as FS changes)	Faster Switching issues diverting resource from MHHS activities to resolving BAU issues. Forced to tolerate and manage. The Programme to recognise that BAU may be higher priority than MHHS	Ongoing	St Clements
MPRS migration development may not be ready for planned start of migration SIT due to significant misalignment between functional design and migration design	As part of our Migration SIT RTTM we identified several conflicting requirements requiring corrections to both the Migration Design and the Functional Design. These are being resolved in IR8, but this is after the start of migration SIT. Lost time from overrunning CIT, focus on readiness for FSIT and supporting early FSIT have resulted in diverting resource from migration solution development resulting in being less able to flex sufficiently to absorb this uncertainty. To manage this risk, the programme should consider delaying the entry to migration SIT until IR8 and/or stagger the testing themes during the migration SIT test phases (eg separate the testing of portfolio migration, via CoS, reverse (CoS))	Q2 2024 NEW	SCS
Misalignment between St Clements and Programme expectations for FSIT (STCR45)	Suitable levels of resource may not be available to support FSIT if expectations do not align, and insufficient notice is given by the programme. As the operation of functional SIT beds down it will become clearer whether expectations align. DNOs have supported St Clements in possibly mitigating this risk by funding additional test resource.	2 April 2024	Programme/St Clements
STCR58 - There is a risk that there is insufficient time available to fully test CR036 (Time change) ready for implementation into SIT functional cycle 2.	Programme must accept the risk that, although the functionality could be made available, comprehensive testing through UAT/PIT is unlikely to be complete. This could lead to avoidable defects being identified and retesting required.	Q1 2024	Programme
STCR23 – With late delivery of Programme artefacts there is a risk of insufficient time to review/develop MPRS without impacting delivery timescales	Programme to consider staggering delivery of Programme artefacts requiring review. Artefacts need to be delivered on time with sufficient time allowed to review. For example, with the late delivery of SIT test cases, the MPRS team does not have the capacity to dedicate time to review activity without impacting delivery and testing activities	Q1 2024	Programme
STCR35 - Registration service reports undefined within the MHHS design and changes to reports will be required	Information on existing MPRS mandatory reports provided to Elexon/Ofgem. Any MPRS report development required can only take place after the migration code has been delivered if MPRS delivery into programme test phases is to be unaffected	Q1 2024	Programme
Requirements for SIT-B environment at SCS	The programme has decided that migration SIT will be executed on SIT-A but FSIT theme 8, Settlement, will be tested on SIT-B. This is not an efficient use of resources. With continued uncertainty whether St Clements is best positioned to execute non-functional SIT, this requires a whole new environment setting up for just one test case. The programme must consider more cost-effective alternatives.	2 April 2024 NEW	Programme
Assumption & RAG	Action required to remove assumption	Date to be resolved	Action Owner
MPRS high level plan broadly remains the same following detailed IA	Detailed IAs for later sprints (including migration) to be completed	Through to last sprint	SCS
Scope of MPRS development does not extend	Scope change (eg data cut/data cleanse/CRs) to impact milestones. Consider delaying when functionality is required for testing	28 February 2024	Programme
Governance/assurance does not impact MPRS delivery activities	Light touch and targeted approach	Q1 2024	Programme

RAGs	Overall	Approach	Plan	Resources	Budget	Risk	Stakeholders	Suppliers
------	---------	----------	------	-----------	--------	------	--------------	-----------

Status & Outlook

Progress last month:

- REC**
- R0044 Systems Integrated testing completed
 - R0093 (CR4990) – Estimates from Service Providers on CSS traffic uplift near completion.
- SEC**
- MP162 (MDR Role) User Integrated testing completed Mid March, Elexon SIT functional testing initiated
- Capacity**
- MHHS Capacity uplift commercial negotiations are in progress to ensure value for money capability is provided.
- New Requirements**
- **SIT Functional Testing – Resources Onboarded, Testing Underway**
 - **SIT Migration Test Scenarios Reviewed & Feedback Provided**
 - **Service Delivery & Migration Bilats covering inputs on Service Strategy & Migration Scheduling & Risks**

Progress expected in the coming month:

- REC - Complete R0044 UIT testing
- SEC - Complete MP162 UIT testing
- Capacity – Planning near completion to support 2024 delivery of uplift
- REC R0093 estimated costs and durations returned to RECCo
- REC R0093 appeal content to be published by Ofgem
- Clarity to be Obtained re Operational Testing
- Migration Framework reviewed & work to identify approach towards mitigating key Migration Volumes Risk
- Bilateral meetings with Elexon covering Service Design
- Data Cleanse Approach & Plan Dates confirmed
- Continued SIT FT Support

Party Milestones & Deliverables	Original or Baseline Date	Forecast date & RAG
Ofgem approval	25-10-22	28-11-22
MHHS SIT Start	11-03-24	11-03-24
MP162 Go-LIVE	27-06-24	27-06-24
R0044	27-06-24	27-06-24
Capacity Uplift	June 24/25	June 24/25
R0093	2025	April 2025

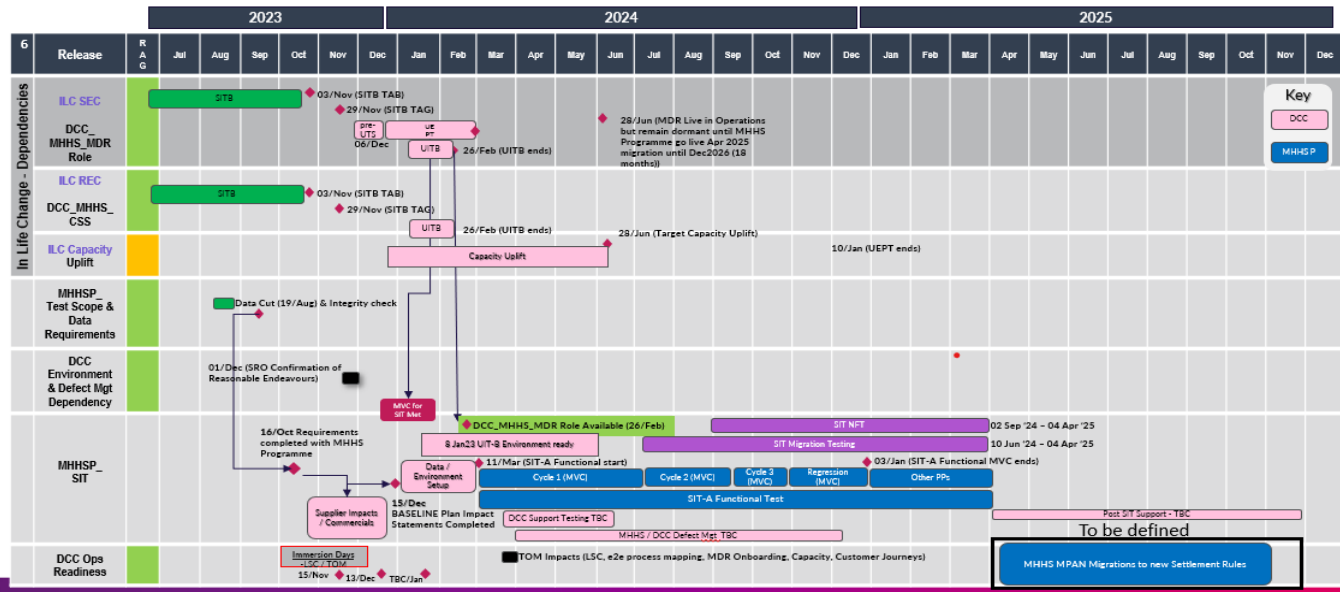

Decisions required	From whom?	By when?
None	n/a	n/a

Top Risks and or Issues (See detail on page 2)

R0093 (CR4990) – agreement with RECCO to workup new change for actual capacity uplift

Assumption & RAG	Action required to remove assumption	Date for action to be resolved	Action Owner
As UIT-B is a shared environment, there will be a need for downtime during the 12 months of testing, in support of other Programmes. All outages will be registered via ADO.	No Action required – reiteration of existing agree assumption	N/A	N/A

Dependency & RAG	Managing action required	Date for action to be resolved	Action Owner

Change requests supporting MHHS	Descriptions	Completion date	Action owner	Status
Commercials Completed: PR7809 SIT Support (DCC as Participant) (Combined with PR7772)	Provision of support for SIT Testing to provide required evidence of DSP/CSS participation, support E2E SIT Defect Management, & support meters used in DCC testing	2024/2025	DCC/Service Providers	All PO's Raised
Commercials Completed: PR7771 (For Data Cleanse)	Support the Data Cleansing requirements as specified by Elexon to support the Migration activities planned for 2025	2024/2025	DCC/Service Providers/MHHSP	All PO's Raised
Commercials Completed: PR7760 (MHHS Programme Engagement)	To address the definition of the new requirements for DCC Service Providers to allow them to estimate the duration/costs to support – UPDATED with Support Requirements for ongoing programme delivery	Dec '23	DCC/Service Providers	Extension for April-Sept 24 under review
IN PROGRESS: CR4879/CR5815 (Capacity)	Infrastructure and Capacity uplift to support the increased network traffic modelled to allow the MDR Service Requests to be processed within SLA and ensure the Service to End Users is maintained	2024/2025	DCC/Service Providers	Open
Closed: R0097 (Consequential change for CSS MDR appointments)	ERDS change asking them to make changes at their end to be ready to use the new 'tick box' when they want a message confirmation.	2025	RECCo	Closed – Incorporated in R0044
IN PROGRESS: R0093 (CR4990 - Uplift to CSS Max demand volumes during MHHS migration period)	Ensuring there is sufficient capacity across the CSS systems to support the increase in Service Requests pertaining to the new MDR role. Currently with DCC & SPs for re-estimation of costs.	2025	DCC	Open

Change requests supporting MHHS	Descriptions	Completion date	Action owner	Status
PRxxxx DSP Migration Capacity	Any additional capacity required to cope with peak-of-peak migration threshold	Jan '24	DCC/Service Providers	To Be Raised
PRxxxx DCC Operational Support for Migration	Potential Hypercare during early phase (c. 3 months) of migration to ensure success	Jan '24	DCC/Service Providers	To Be Raised

COMPLETED: PR7742 (DCC PR that supports the Data Backup requirement)	Data backup and retention of both CSS (Faster Switching) and DSP (SMETS) data to support the Exelon SIT Functional testing stage	19/08/23	DCC/Service Providers	Complete
COMPLETED: PR7788 (MHHS SIT Preparation – CSS-DSP Connectivity)	Work required to re-configure both CSS and DSP components in UIT-B to connect to each other rather than the simulators.	Dec '23	DCC/Service Providers	Complete
COMPLETED: PR7806 (DSP), PR7822, (CSS) (MHHS Test Data Upload)	Define and set up SIT data for CSS & DSP as well as MPANs for meter sets in end-to-end testing with DSP	Jan '24	DCC/Service Providers	Complete
COMPLETED: CR4813 (DCC CR that supports the SEC Modification MP162)	Creation of the new MDR role within the DSP systems and progressed by DCC and its Service Providers through Design, Design Assurance, Build, PIT, DCC SIT, User End Processing Testing (UEPT) and Testing Participant User Integration testing	09/02/24	DCC/Service Providers	Complete
COMPLETED: R0044 (CSS to DSP Interface changes)	Updating of existing interface with additional MDR data fields to support the new role and allow agent appointments to be made and support the change of supplier/agent Industry process. This will be testing across SIT/UIT.	09/02/24	DCC/Service Providers	Complete

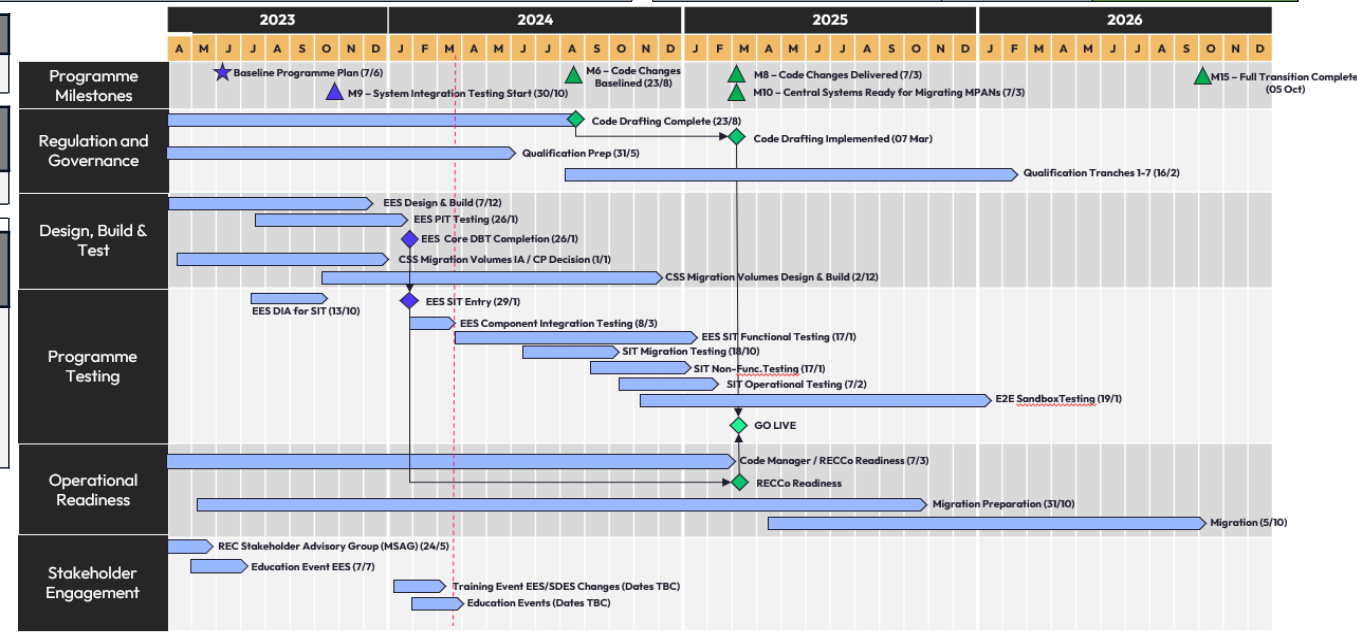

Ref.	Risk	Probability	Mitigation	Owner	Area
1	The current peak-of-peak migration thresholds defined in the Migration Thresholds document assume a peak-of-peak of 300K CoAs per day above “business as usual” (BAU) volumes. BAU volumes today may not reflect BAU volumes between April 2025 and October 2026 as we can anticipate MHHS to stimulate higher levels of switching as Suppliers offer new MHHS products and services.	Medium	CSS and DSP should be sized for a peak-of-peak CoA volume of 300K plus 291K (the original CSS peak-of-peak volume) to allow for growth in switching rates.	DCC	Migrations / Capacity
2	The changes required in CSS and/or DSP to achieve a peak-of-peak CoA volume of 591K may not be cost effective and/or technically feasible.	Medium	Include performance testing within the PRs raised with CGI and Landmark & Netcompany to confirm compliance with these volumes and make DCC commitment to associated SLAs contingent on successful completion of this testing.	DCC	Migrations / Capacity
3	Any changes which materially impact the Capacity Assumptions that form the basis of DCC's MHHS Capacity increases may not be able to be met, due to the time required to deliver capacity increases	Medium	PPIR issued to all for responses by 19/03. Responses will be analysed & any impacts to the capacity increases required will be taken through internal DCC Governance in April.	DCC/MHHS Programme	Capacity
4	As the SIT FT schedule is still to be finalised, DCC will resource its Test Support on the basis of assumptions to ensure that sufficient resources are assigned to run & evidence tests involving DCC. There is therefore a risk that this may be over-resourced.	Medium	Continue to work with MHHSP Test Team to refine assumptions, and put in place commercial arrangements which allow the level of resource to be reduced if required.	DCC	Test Support
5	Risk that Migration Testing is not comprehensive, as this currently omits DCC involvement, beyond 1 message in 1 scenario – this results from the test scenarios following business process which omit DCC.	High	Has been raised by DCC via Test Scenarios feedback, email to the Testing team, and via Bilat, for resolution	MHHS Programme	Test Team
6	Risk to CSS performance if daily migration volumes exceed the 300k peak-of-peaks, for which there is no system-based control to prevent	Medium	DCC will work with Elexon Migration Delivery to identify the means to mitigate the likelihood of this occurring, and the actions to be taken in the event of an occurrence.	DCC/MHHS Programme	Migrations / Capacity
7	Mandated MDR Appointments for all MPANs may not be necessary but will require additional infrastructure requirements for DSP.	Medium	Analysis has identified that this represents a 5% increase in storage capacity at VoltDB. As this is currently running at c.50% memory, no upgrade will be required – PROPOSE CLOSED	DCC/MHHS Programme	Capacity

------	---------	----------	------	-----------	--------	------	--------------	-----------

Status & Outlook	<p>Progress last month:</p> <ul style="list-style-type: none"> Helix team is now supporting SIT Functional cycle 1 as per agreed schedule. ISD Data issues have been encountered and the majority have now been fixed, ready to release on 25th March. Prepared initial delivery plan and estimate for non-SIT participants. Non-SIT supplier and Agent Test Approach issued for industry consultation. Service Transition planning for whole of Elexon underway. Continuing engagement with RECCo and DCC to align overall service design and produce low level design agreements. All key business teams in Elexon have commenced business change engagement. E2E testing working group has been formed. 	<p>Progress expected in the coming month:</p> <ul style="list-style-type: none"> Support of SIT Functional cycle 1 and resolution of any defects that arise. Release 9.6 to be completed which will support later phases of SIT testing. Qualification Approach and Plan to be reviewed and approved at PAB. Commence Qualification Testing Framework (QTF) build. Complete and present the high level Business Change impact analysis to the Elexon Senior Leadership Team. Shared clarification with MHHSP of DIP Transition planning. PI10 Planning of core build due to take place.
------------------	--	---

Party Milestones & Deliverables	Plan Date	Forecast date & RAG
PIT completion report of SIT	9/02/24	Complete
Approval of the MHHS Service Strategy	9/02/24	Complete
Target Release of 8.6 to SIT functional environment.	18/02/24	Complete
QA&P approval by PAB	28/03/24	In progress
PI10 Planning for Solution Build	19/04/24	Not started
High-level business change impact assessment	19/04/24	In progress
First pass definition of operational business change plan	30/04/24	In progress
QT functional test scenarios approval	23/05/24	In progress
SIT functional phase1 ends	28/05/24	Not started
Target second code release for SIT to cover SIT phase 2 requirements	31/05/24	In progress

RAID and RAG	Type	Mitigating or resolving action required	Date to be resolved\ updated
If further changes impact on the scope of Helix, they may impact on SIT preparation and will drive further cost into the programme. Update: We are continuing to see changes from MHHSP to Helix/participants.	Risk	Recognition that Helix has a materially complete code base with due consideration given to avoidance of refactoring of this code base within future change requests. Reduced the severity of this risk due to the change freeze being introduced by MHHSP. 21/3 – The change freeze is not effectively slowing down the pace of change from MHHSP and trending upwards. This remains a concern.	Ongoing
Rephasing of SIT to place Theme 8 settlement later in the plan increases the risk of overall date slippage by increasing the strain of later phases.	Risk	In the event of slippage to SIT, Helix will have to perform additional development to absorb additional costs. Any slippage to SIT dates would impact on the Assurance and Qualification workstream. 21/3 – MHHSP decision to switch from SIT-A to SIT-B is adding further resource contention and pressure to timelines.	30/4/24
If the transition plans for go-live of Helix and transition of MHHS are not advanced urgently there is a risk that this phase will not run smoothly.	Risk	Transition leadership team in place. Engagement plan has been rolled out to all Elexon operational teams. Impact analysis to be cascaded to Senior Leadership Team by end of April.	30/4/24
There is a Risk that the overall progress of migration does not work as Ofgem and MHHS desire if we do not have additional support for DIP onboarding and also management support to drive the queuing and progress of all Non-SIT participants	Risk	Helix and MHHSP team are working together to develop shared plans to manage this phase of work. The Helix team are currently onboarding additional resource to support DIP Onboarding and Migration planning.	30/4/24

Status Update	<p>ElectraLink updates for February PSG:</p> <ul style="list-style-type: none"> The MHHS programme has identified the need for a set of data flow changes and additions for SIT. Engagement ongoing to understand the work required to achieve this update. Continued collaboration with MHHS Programme and teams engaged via participating in working groups such as SITWG, FITG, S&T, DAG, DWG and fortnightly sessions with the programme and Webinars. 						<p>Milestones and Deliverables:</p> <ul style="list-style-type: none"> None 	

Decisions required	From whom?	By when?

RAID	Mitigating or resolving action required	Date for action to be resolved	Action owner
Assumption: TR03 will be used by all SIT customers for testing on the DTN and no further communication is needed to SIT customer from ElectraLink	This has been confirmed by the Programme. Programme to determine if formal communication is required from ElectraLink	-	Elexon/ElectraLink

Dependencies	Managing action required	Date for action to be resolved	Action Owner

RAGs	Overall	Approach	Plan	Resources	Budget	Risk
------	---------	----------	------	-----------	--------	------

Activities reported as progressed in March:-

- SSEN (as MVC for SIT)
- Completed CIT execution.
- Submission of CIT Test Completion documentation for Registration Services, LDSO & UMSO.
- Install & configure SIT Functional versions of Registration Services, LDSO & UMSO solutions.
- Review Sit Migration test cases & define target solutions architecture with SCS, ElectraLink & C&C.
- Continuing weekly bi-laterals with SI.
- Completing QAD
- Obtaining DNO sign-off on MPRS Agreement via eSign.

General DNO Comments

- PIT Test Approach & Plan submitted – awaiting feedback from code bodies and QT Programme
- PIT – Connectivity to DIP Simulator/ DIP Adaptor
- Qualification – Bi-lateral 15/3 with Programme to discuss Qualification testing requirements await written confirmation from Programme
- Qualification – Planning continues to develop DNO plans subject to test requirements defined with Programme
- Data Cleanse – Export/Import MPANS Analysis on linked MPANS & program self declaration return
- Durabill MHHS Release 6.5 P1 code – UAT commenced
- Programme Consultations: SIT Migration Test Scenarios, CR44 – CR48,
- & Migration Development Framework Consultation
- Reviewing migration outputs from SCS versus internal systems capacity

Activities reported as expected to progress April:

SSEN (as MVC for SIT)

- SSEN in second week of FSIT. Test cases being progressed successfully. Issues with test data quality & UMSO test scenarios.
- Data Cleanse – submitted Export MPAN Statement.
- Complete PIT for FSIT Completion Report (overdue).
- Install application updates for Durabill 6.5.x.
- MPRS Agreement (use of MPRS API code for ADQM) fully signed by all DNO's.
- Instigating bi-laterals/multi-party calls re SIT Non-Functional & Settlements Testing. Clarify environments position.

General DNO Comments

- PIT - Test Approach & Plan submitted – Uplift DNO Plan on feedback from code bodies/Programme & resubmit to Programme
- PIT – DIP SIM /Adaptor Connectivity to IR8
- Qualification - Planning continues to develop DNO plans subject to test requirements defined with Programme & Code Bodies
- Qualification - Review Operational & Migration approaches
- Qualification - Review Test Scenarios Batch 3
- Data Cleanse - LDSO notify supplier of MPAN exceptions
- Migration - Review Consultation Framework 8/4/2024
- Migration - Internal review to support volume metric & SLA
- Programme Consultations & Working Group Attendance, Change Requests, DINS, Program Consultations
- Attend MHHS Open Day

DNO Key Milestones (in Round 3 plan)	Round 3 date & confidence level / RAG	Reasons for confidence levels
For those intending to participate in Systems Integration Testing (SIT) - SSEN		
SIT (Functional) start	27-Feb-24 1 High confidence	• SCS to carry out on behalf of SSEN for Registration Services.
M10 - readiness to support migration start, including Registration Services, Network Operators and UMSOs	07-Mar-25 1 Medium confidence	• Further outcomes of testing success required from SIT Functional before being 100% confident re migration testing.
For those intending to participate in non-SIT LDSO (qualification) testing		
Non-SIT LDSOs testing start (Functional / Migration / NFT / Ops)	02-Jul-24 5 Medium confidence	As point above: Requirements from the programme in relation to requirements for LDSO/Billing/UMSO are still to be clarified. Ongoing discussions regarding Qualification, PIT plan timelines, data requirements and test cases.
M10 - readiness to support migration start, including Registration Services, Network Operators and UMSOs	07-Mar-25 5 Medium confidence	At this point we have rated as medium confidence, noting that these requirements are still to be agreed at Programme level. Ongoing industry discussions regarding migration volumes & SLA's – consultation.

Decisions to be made by DNOs	Impact of no decision	Decision by when?
DNOs to consider sign off of C&C using MPRS API code for ADQM API Delivery	Impact SIT Functional timelines for delivery	Complete

Decisions required from the Programme	Impact of no decision	Decision by when?
SIT Non-Functional – UMSO testing across cohorts. Unclear how this will work for DNO's	Problems completing SIT Functional tests	04/04/24
SIT Non-Functional. Lack of clarity on scope & testing requirements	Delay Parties from starting effective planning for NFT.	04/04/24
Test Data Requirements for NON-SIT LDSO - Qualification	Unable to plan testing and failure to qualify	ASAP
Clarity of 3rd Party Adaptor Service Provider in performing SIT Non-Functional & Operational Testing on behalf of DNO's	Failure to Qualify – unable to validate requirements	ASAP
Clarity of DUOS Settlement process required prior to Migration (CR019) related	Risk to DUOS Billing Charges if Central system do not provide consumption data	ASAP
Migration SIT will be executed on SIT-A but FSIT theme 8, Settlement, will be tested on SIT-B. This is not an efficient use of resources. With continued uncertainty whether St Clements is best positioned to execute non-functional SIT, this requires a whole new environment setting up for just one test case.	The programme must consider more cost-effective alternatives.	ASAP
Confirmation of CR's and Outstanding Design Decisions (DIN Log) specifically IR8 as raised by St Clements.	Delay to DBT and unable to achieve R3 SIT dates. Potential delay to DBT of UKPN internal downstream systems.	ASAP
Clarity on the scope of PIT (Migration & Non-Functional) and Qualification Testing scenarios based on the placing reliance policy.	Failure to qualify – Duplication of work for DNO.	ASAP

Escalations (priority items for attention and support from the Programme)	Action by when?
Qualification – exact testing requirements for each LDSO to be defined by the program and code bodies	ASAP
Decisions on outstanding DIN Log items, CRs, Design Queries and Non-SIT LDSO and timelines and data requirements for Qualification - as above. IF19 & 20 association management	ASAP
SIT Migration, Non-Functional & Operational testing requirements are yet to be fully detailed	ASAP

Risks or Issues	Impacts	Opportunities to resolve and deliver as soon as possible
Lack of clarity regarding environments requirements for Settlements Testing & SIT Non-Functional Testing	Environments provision & readiness to undertake test start dates.	Multiparty meeting to discuss
Central systems (data services/load shaping) do not provide 100% coverage of consumption data to LDSO's	DNO's unable to fully recover DUoS charges.	CR019 decision
Availability of core software products MPRS,UMSO etc to support NON SIT LDSO PIT & Qualification is unclear	Unable to meet PIT/Qualification timelines	Provide product delivery plan for NON-SIT LDSO's to complete PIT
Potential impact on DNO budgets dependant on environment, testing requirements and timescales & new change requests	Potential under-recording of DNO cost impacts in the Programme benefits. DNOs will require approval of additional Programme funding	Require firm commitments on requirements for Environment requirements for Non-SIT LDSO testing.
The Reverse Migration Solution is too complex to enable Core Capability Providers to Achieve Testing & M10.	M10 timelines	N/A
Data Cleanse activity may take longer than aligned within program plan	Failed migration and/ or extended timelines and/ or poor quality data	Question remains over whether import and export linkage is required (as per Elexon P459).
Issues identified during SIT result in delays to Programme milestones.	Ability to place reliance on SIT.	-
Misalignment between the Migration Design and Functional Design resulting in new design issues (DINs) for SCS requiring additional MPRS development effort.	Potential delay in MPRS product availability.	Resolve the design issues and replan the Migration SIT to accommodate the changes.

RAGs	Overall	Approach	Plan	Resources	Budget*	Risk
Status & Outlook	Activities reported as progressed in March:		Activities reported as expected to progress in April:			
	<ul style="list-style-type: none"> Completed and submitted IDNO SIT PIT Migration Approach & Plan. Completed changes to our DTN Gatekeeper systems ready for SIT Functional. Commenced SIT Functional. Monitored progress of LDSO DINs and CRs and responded where appropriate. Continued Data Preparation requirements activity, including submitting P434 data cleanse self-declaration. Engaged with the Programme regarding the Draft Service Management Strategy. Reviewed Code Mop Up 2 final consultation and submitted comments. Reviewed Supply, Distribution and Transmission Licence Review and submitted comments. Commenced preparation for UAT activities. Considered LLF ID/DUoS ID Mapping approach. 		<ul style="list-style-type: none"> Continued monitoring of LDSO DINs progress and review CRs. Continue to undertake data cleanse and preparation requirements. Continue to identify Programme impacts to current BAU processes. Review SIT Functional Approach & Plan. Consider Qualification/Qualification testing requirements. Consider What-After-M10 for the Programme and Programme Participants. Further consider LLF ID/DUoS ID Mapping approach. Start prep on Pre-Qualification Submission required to be submitted by 26th April. Open Day attendance 23rd April. 			
	Decisions to be made by IDNOs		Impacts of no decision		Decision by when?	
	Decisions required from the programme		Impact of no decision		Decision by when?	
	Qualification requirements are still to be fully confirmed by Programme and Code Bodies.		Unknown testing requirements for completion of stages.		Code Body bil-laterals with PPs by the end of March should help.	
	Escalations (priority items for attention and support from the programme)				Action by when?	
	Clarity and resolution on the above				ASAP	
	Risks or Issues		Impacts		Opportunities to resolve and deliver as soon as possible	
	Migration Solution Delivery. No solid design due to the misalignment between functional design and migration design.		Risk of our MPRS provision not meeting start of SIT Migration.		Continued Programme/St Clements Services working to alignment/resolution.	
There is a risk that Qualification requirements might challenge delivery.		Additional qualification requirements may threaten other areas of delivery.		Code Bodies fully identify what requirements there are for Qualification/Qualification Testing. We are expecting to be in a better position towards the end of March/beginning of April.		
Risk of Suppliers back-ending their P434 data activity and landing volumes on LDSOs.		Inability to meet data cleanse requirements to Programme timescales.		Understanding of Supplier intentions and Programme coordination.		
Service Management Review potential requirement for LDSO Service Desk – review document not 100% clear and could be interpreted in different ways.		Potential additional expense if LDSOs are required to provide individual service desks post MHHS go live.		LDSO session with the SI team to clarify and await consultation results.		
Confusion around DBT2 forum re DUoS Billing as DBT2 requirements are out of scope of Programme testing. However, led to believe DUoS Billing is now in scope and part of SIT Functional?		Confusion on how we can ensure data received from Helix / DIP is used to ensure revenue streams and cash flow are as expected to continue in BAU following migration to MHHS.		Further discussion required.		
Lack of test data.		Delays to SIT and, potentially, impacting wider milestones.		Timely resolution by the Programme to the lack of test data.		
IDNO Key Milestones (in Round 3 plan)			Round 3 date & confidence level / RAG		Reasons for confidence levels	
For those intending to participate in Systems Integration Testing (SIT)						
M9 - SIT CIT start			30-Oct-23 [1] High confidence [] Medium confidence [] Low confidence		Progress for M9 is positive.	
SIT (Functional) start			11-March-24 [1] High confidence [1] Medium confidence [] Low confidence		We are currently on track to commence SITF on 11th March.	
M10 - readiness to support migration start, including Registration Services. Network Operators and UMSOs			07-Mar-25 [1] High confidence [1] Medium confidence [] Low confidence		Progress for M10 looks positive. However, this is still a fair way away, with multiple challenges between now and then.	
For those intending to participate in non-SIT LDSO (qualification) testing						
Non-SIT LDSOs testing start (Functional / Migration / NFT / Ops)			02-Jul-24 [2] High confidence [1] Medium confidence [1] Low confidence		Will gain more confidence when sessions held with programme TA. Expecting potential delays (1 IDNO)	
M10 - readiness to support migration start, including Registration Services. Network Operators and UMSOs			07-Mar-25 [1] High confidence [1] Medium confidence [1] Low confidence		Will gain more confidence when sessions held with programme TA. Expecting potential delays (1 IDNO)	
IDNO Adaptor status						
Decision to use an adaptor			Functional scope of adaptor agreed		Adaptor procurement completed	
Yes [5] No [0]			MPRS only [1] Wider [3]		[4xY] [1xN]	

*One IDNO budget rated Red.

FTIG meetings

- Focus of sessions is on later SIT stages
- Recent key topics:
 - Secondary routing testing progress
 - SIT Functional Preparation work off plan
 - Environments for Settlement and Migration testing
 - SIT Migration Preparation readiness
- Good engagement from CCPs and PPs
- Open & transparent discussion on the above topics both in FTIG and in associated bilaterals
- Moved back to a fortnightly cadence with ~70 attendees

MHHS Programme – Code Workstream Summary

Overall Status

- The Code Drafting Workstream is on track for M6 delivery in August 2024 and lower-level tier 3 milestones are all on track. M7 Delivery and M8 Implementation planning is ongoing.

March Summary

- Triage and action 400+ consultation comments
- Continue M7 with Ofgem and Code Bodies
- Continue M8 planning with Code Bodies

April Deliverables

- Assure consultation comments
- Finalisation and consistency check
- Continue M7 and M8 planning

Mstn Ref	Drafting Milestones	Baseline date	Forecast date	Status
T2-RE-0100	Data Services approved at CCAG	24/05/23	24/05/23	Complete
T2-RE-0150	Metering Services approved at CCAG	24/05/23	24/05/23	Complete
T2-RE-0250	Registration approved at CCAG	23/08/23	23/08/23	Complete
T2-RE-0200	BSC Central Services approved at CCAG	27/09/23	27/09/23	Complete
T3-RE-0300	Governance, Migration and Qualification approved at CCAG	22/11/23	22/11/23	Complete

Governance group updates

Programme Steering Group (PSG)

PSG 06 March 2024
New Advisory Groups: PSG approved the ToRs of the new SITAG, MCAG, and QAG.
CR036 Appeal Decision: IPA advised they had not seen evidence that overturning the original CR036 decision outweighed the impacts of doing so. Recommendations on improvements to the Programme change process have been provided to the Programme and the IPA recommend a wider industry review of the discrepancies in the use of UTC/Clock Time.
Change Control: SRO approved improvements to the MHHS Change Control Approach in response to the IPA's recommendations. The updates will be implemented via a housekeeping CR, and detail on the improvements can be found within the PSG meeting papers.
 PSG papers available [here](#).

Design Advisory Group (DAG)

DAG 13 March 2024
Interface Code of Connections (CoCo): SRO approved updated CoCo for publication as v1.4
CR043 Decision: SRO approved CR043 (Supplier Registration of ABMU and MPAN [Mapping](#)) for publication in IR8)and testing schedule to be determined.
CR044 Impact Assessment (IA): SRO approved CR044 (Implementation of 'Data Refresh' [Message IF-051](#)) for IA.
CR045 IA: SRO approved CR045 ([Supply Start Date \(SSD\) Correction Tool](#)) for IA, subject to a strawman solution being issued alongside the CR for IA.
CR045 IA: SRO approved CR046 ([Enabling Metering Point Energy Flow to be changed more than once](#)) for IA, with view to be solicited on implementation date.
 DAG papers available [here](#).

Cross Code Advisory Group (CCAG)

CCAG 28 February 2024
Horizon Scanning Log: No updates from DCUSA. REC provided updates on R0062, R0064, R0080, R0093, R0121 & R0139. CP1589 has been withdrawn as it was rejected by DAG in February, as well as three Mods 466, P467 & P468, and two CPs CP1592 & CP1593, have been raised.
CDWG Escalations: No escalations raised.
Consequential Code Delivery: CUSC panel presented two modification proposals CMP430 and CMP431 to Ofgem. The CUSC working group has requested urgency from Ofgem with regards to the decision.
Code Drafting Working Group (CDWG): March CDWGs are to be cancelled as there is not enough meeting material.
License Review: Consultation closed 13 March.
 CCAG papers available [here](#).

Wider Programme Updates

MHHS Programme Collaboration Base and Website updates:
 We've updated the [Migration](#) section and renamed it **Migration & Transition**. Here you can find everything relating to **Migration**, as well as a new section on [Transition](#) and moved [Qualification](#) higher up in the navigation, so it has its own dedicated section on the top-level navigation.

- Participant Checklist:**
- 1.REMINDER: Design Interim Release 8 Objection cut-off - the deadline is **today, Wednesday 20 March 2024**
 - 2.Systems Integration Testing (SIT) Migration Theme 3 Test Scenarios & Test Cases - the deadline is **today, Wednesday 20 March 2024**
 - 3.Environment Approach & Plan Industry Review - the deadline is **tomorrow, Thursday 21 March 2024**
 - 4.REMINDER: Licensed Distribution System Operator (LDSO) Import/Export Meter Point Administration Number (MPAN) matching deadline - the deadline is **Friday 22 March 2024**
 - 5.REMINDER: Pre-Integration Testing (PIT) Deliverable Submission Timelines - the deadline is **Friday 22 March 2024**
 - 6.NEW! Change Request CR044 issued for Impact Assessment - the deadline is **Thursday 28 March 2024**
 - 7.NEW! Change Request CR045 issued for Impact Assessment - the deadline is **Thursday 28 March 2024**
 - 8.NEW! Change Request CR046 issued for Impact Assessment - the deadline is **Thursday 28 March 2024**
 - 9.SIT Non-Functional Test Approach & Plan - the deadline is **Tuesday 2 April 2024**
 - 10.Qualification Approach & Plan (QA&P) Annex 2 Consultation - the deadline is **Friday 5 April 2024**
 - 11.Non-SIT Supplier & Agent Qualification Testing Test Scenarios Consultation - the deadline is **Friday 5 April 2024**
 - 12.Migration Framework Consultation - the deadline is **Monday 8 April 2024**
 - 13.REMINDER: Pre-Qualification Submission - the deadline is **Friday 26 April 2024**
 - 14.Change Request CR043 approved by the Design Advisory Group (DAG)
 - 15.MHHS Non-Functional Testing Policy published
 - 16.Swaggerhub Portal errors
- You can view the **Participant Checklist** on the respective **Planning pages** of the [Collaboration Base](#) and the [MHHS website](#).

- Upcoming Governance Meetings:**
- Tuesday 26 March 2024:** [Migration & Cutover Advisory Group \(MCAG\)](#)
 - Wednesday 27 March 2024:** [Cross-Code Advisory Group \(CCAG\)](#)

- Upcoming Events:**
- Non-Systems Integration Testing (SIT) Supplier and Agent Qualification Testing Functional Test Scenarios Walkthrough: 25 March 2024**
 - Non-Systems Integration Testing (SIT) Supplier and Agent Qualification Testing Functional Test Scenarios Walkthrough: 25 March 2024:**
 - Thursday 4 April 2024 at 11:00 – 12:00**
 - Tuesday 9 April 2024:** there will be a session at the end of the Qualification Working Group
 - Wednesday 17 April 2024 at 14:00 – 15:00**
 - REMINDER: MHHS Open Day: 23 April 2024**

System Integration Testing Advisory Group (SITAG)*

SITAG 20 March 2024
SIT Migration Test Scenarios (TS) & Test Cases (TC): SRO approved the Theme 1 (Forward Migration) TSs & TCs.
SIT Functional Preparation Work-Off Updates: Programme provided updates on SIT F Prep work-off, per the meeting slides.
IPA Updates: IPA provided overview of volume of assurance recommendations made since April 2023, noting the majority have been implemented.
Milestones: SRO approved change of delivery date for Programme milestone T3-TE-0092 (Environment Approach and Plan - SIT Non Functional).
 SITAG papers available [here](#).

Qualification Advisory Group (QAG)*

QAG 22 February 2024
QAG Terms of Reference: QAG approved draft SITAG Terms of Reference and recommended for Programme Steering Group (PSG) approval.
Working Groups under QAG: QAG provided an update on the Working Groups under QAG and the format of the Qualification Working Group (QWG) after the implementation of Change Request CR035.
Qualification Milestones: QAG provided an update on proposed changes to Qualification milestones and walked through the proposed changes to milestones to support updating the Programme plan. QAG members were asked to go to constituents for additional comments on any changes to milestones.
 QAG papers available [here](#)

Migration & Cutover Advisory Group (MCAG)*

MCAG 27 February 2024
MCAG Terms of Reference: Provided feedback on the MCAG Terms of Reference and requested endorsement for Programme Steering Group (PSG) approval.
Data Cleanse Plan Decision: MCAG approved the latest Data Cleanse Plan (v2.0).
Service Management Strategy: MCAG approved the latest Service Management Strategy (v1.0).
Migration Control Centre Framework: Provided an update on the Migration Control Centre Framework.
Programme Milestones: SRO approved the revised delivery date for milestone T3-MI-0023 to 28/05/2024
 MCAG papers available [here](#).

Testing

- The PPC Team helped facilitate the start of SIT Functional by preparing readiness sessions for DITL and ADO.
- The PPC Team are assisting the Test Data and Testing team with communications coordination for the upcoming consultations on SIT Non-Functional Test and Test Data Approach and Plan and SIT Operational Test and Test Data Approach respectively on 26 and 27 March. PPC team are also helping coordinate the release of the MPAN Tracking tool to assist parties with Test Data.
- The PPC team has supported with the facilitation of the SIT Migration Review Workshops and is managing the publication of Test Scenarios and Cases for industry review.
- **Next Steps:** Preparation for upcoming consultations and continued communications support for SIT Functional execution.

Qualification

- Pre-Qualification Submission (PQS) webinar held with positive feedback from participants and good engagement with 170 attendees. The Code Bodies have also agreed to host PQS drop-in sessions in April to support participant's queries and completion of the form.
- The Code Bodies have released the Non-SIT Supplier & Agent Qualification Testing Test Scenarios for consultation which is being supported by a walkthrough session on 25 March. PPC expect good attendance at this session to support participant understanding of the scenarios and engage them on their responsibilities and planning for Qualification Testing.
- Participants have fed back a number of queries and comments on the latest update to the PIT Guidance document which has additional Qualification Testing elements included. This is a priority item that participants need to be comfortable with in order to complete the PQS. PPC are working with the Code Bodies to set up a walkthrough session of the document.
- **Next Steps:** facilitate and support Qualification Approach & Plan Annex 2 and Qualification Testing Test Scenarios consultation and engagement with the PIT Guidance

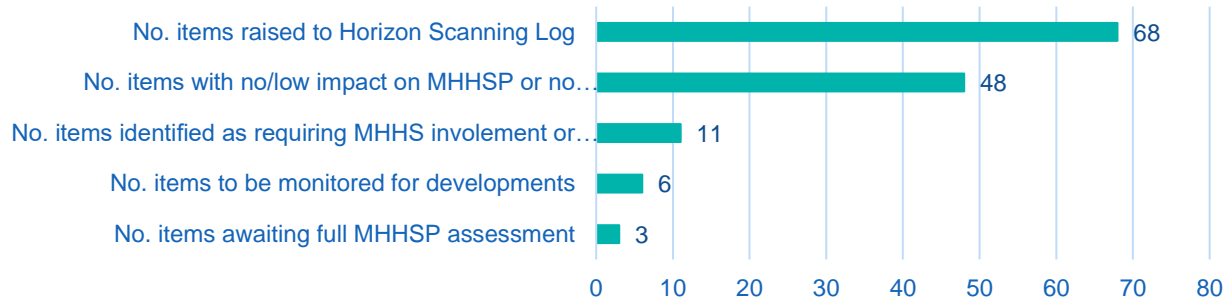

Targeted and Tailored Communications

- The PPC team have supported three webinars recently – the PQS webinar, the Change of Supplier process & the Change Request 47 & Change Request 48 webinar. All three webinar were well attended and received positive feedback. Participants noted they felt in a better position to respond to the PQS and Impact Assessments for the Change Requests presented.
- Planning is well underway for the Open Day on 23 April 2024 which will focus on Qualification, Transition and Migration. A first draft of slides are due from Agenda Leads by COP Friday 22 March.
- Phase 3 of the communication channel improvements has been presented to SRO and includes a new look to the Collaboration Base and website navigation, which is now live.
- **Next steps:** Continue to develop the Open Day agenda for April. Continue the Phase 3 improvements on the Communication Channels.

Industry horizon scanning: Summarise items monitored via the Cross-Code Advisory Group (CCAG) horizon scanning process

Horizon scanning metrics

The following graph summarises items being monitored via the Programme's horizon scanning process

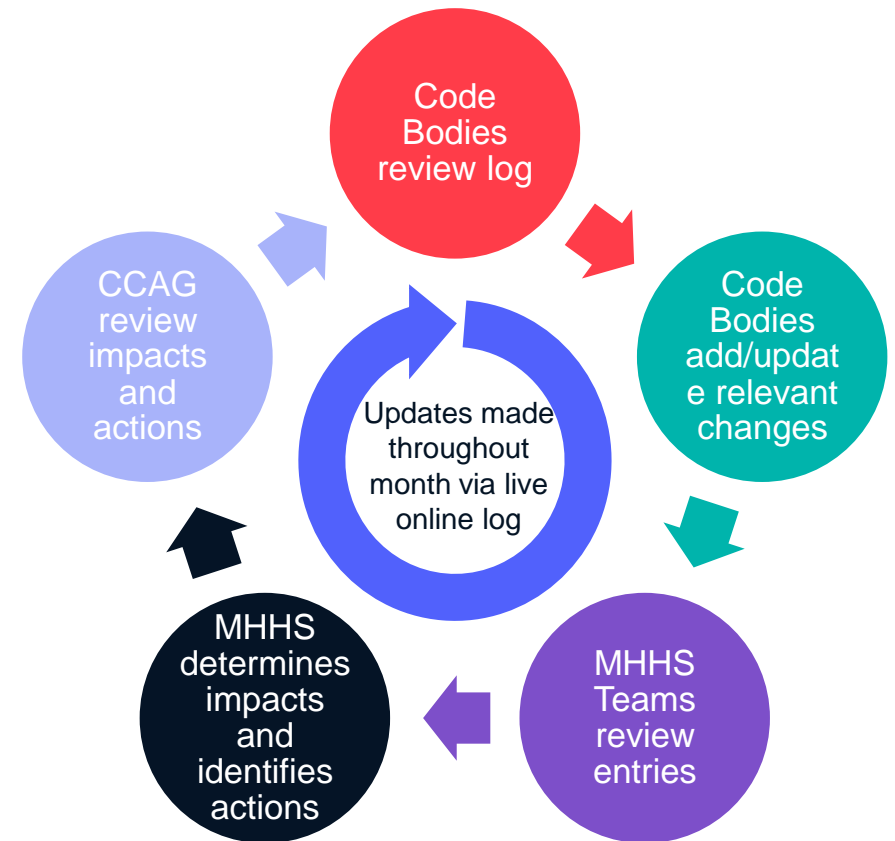

More information can be found via the [CCAG meeting papers](#)

Direct link: [MHHS-DEL387 CCAG Code Change Horizon Scanning Log v1.0](#)

- Industry code changes: 68** – REC: 34, BSC: 15, DCUSA: 11, SEC: 5, CUSC: 3
- Wider industry changes: 5** – HH opt-out, DUoS SCR, code review, microbusiness definition, licence change
- Criticality of horizon scanning items** – High: 11, Medium to High: 3, Medium: 3, Low/No impact: 48
- Top RAID linked items:**
 - **SEC MP162** (R0011, R0083, R0113, R0115, R0116, R051, R0182, R0191, D0076, D0077)
 - **REC R0032** (D0068, D0069) • **REC R0044** (D0055)

Horizon Scanning Process

The CCAG collaborate to populate the Horizon Scanning Log and the Programme undertakes impact assessment of each change. Where a change requires actions by the Programme beyond simple monitoring or initial definition, this is entered into the Programme RAID framework with an appropriate action plan and owner put in place.

Dashboard Objective: To provide PSG with a progress update on in-flight and future planned assurance activities.

Assurance Activities in Progress / Completed during month

Theme-Based Assurance

- **Ongoing Embedded Assurance Activities (WP1) - In Progress** - Monthly cadence of regular interactions with MHHS. Updated change control process is under review.
- **Design Documentation (WP4) - In Progress** - Continued monitoring of design updates/change requests through attendance at DAG and DRG, and review of supporting documentation.
- **Management of Separation Plan (WP5) - In Progress** - A review has been conducted to assess separation plan's operating effectiveness and whether it remains fit-for-purpose for future phases. The draft report is currently being reviewed and agreed with the SRO team.
- **DBT2 Risk Assessment (WP14)** - Review of DBT2 scope/risks to inform any additional assurance activities has been performed. Key recommendations to be shared with PSG.

Stage-Based Assurance

- **Test Assurance (WP9) "Period 5 (P5)" - Complete** - Presented P5 findings to support decision making process for SIT Functional at SITAG and FTIG. **"Period 6 (P6)" - In progress** - Preparing and mobilising P6 assurance activities. Held initial session with LDP to discuss the remaining phases of SIT.
- **Qualification (WP12) - In Progress** - Continued monitoring over preparation activities for Qualification Testing.

Upcoming Assurance Activities

- **Period 6 (WP9/10/11)** - Scoping for P6 assurance period. This will include, progress through SIT F, preparations for SIT M and Qualification preparation.

Assurance Action Status

Overall, 150 actions are agreed with the Programme team or Participants to date.

- 135 are **completed**
- 2 are **agreed but not started**.
- 1 is **expired**
- 12 are **in progress**, out of which

2 are overdue by 1-3 months

1 is overdue by <1 month

9 are within their due date

Below is the trend of actions opened and completed within the last period.

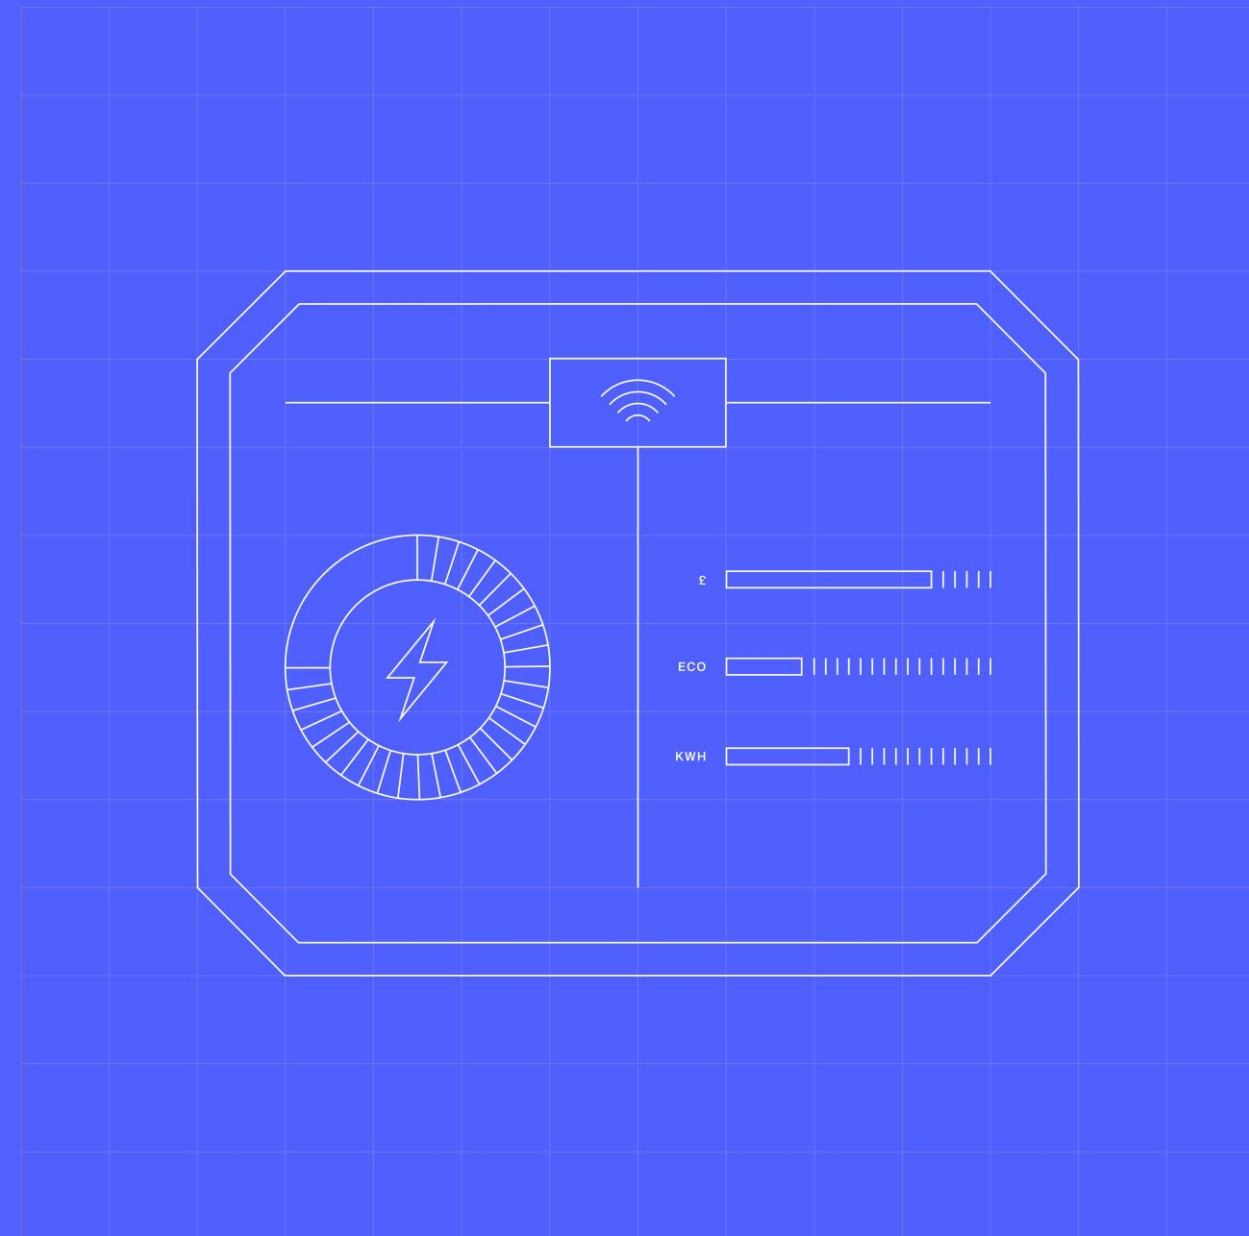

New actions opened and trend	22	↑
Actions completed and trend	24	↑

Summary and Next Steps

INFORMATION: Summarise actions and decisions.
Look ahead to next meeting

Chair and Secretariat

5 mins

Summary and next steps

1. Confirm actions and decisions from meeting
2. Next PSG meeting: **01 May 2024 10:00 – 12:30** (virtual)
3. MHHS Open Day: 23 April 2024

01 May 2024 agenda items

- Qualification Testing
- Testing Updates
- Migration Updates
- MHHS Open Day Summary

Standing items

- Minutes and action review
 - Sponsor update
 - Programme reporting
 - Delivery dashboards
 - Summary and next steps
-

If you would like to propose an agenda item for the PSG, please contact the PMO at PMO@mhhsprogramme.co.uk

Thank you

Appendix

New Advisory Groups Update

System Integration & Testing Advisory Group (SITAG)	
Monthly cadence: Third Wednesday of the month First Meeting: Weds 21 Feb 2024
