Headline Report & Actions	CCAG-DEC75	Headline Report of CCAG meeting held 27 August 2025 approved.
Workstream Closure	CCAG-DEC76	The closure of CCAG was approved by SRO with no objections.

RAID Items Discussed

RAID area	Description
None	

Key Discussion Items

Area	Discussion
Headline Report and Actions	DECISION: The Headline Report of the CCAG meeting held 27 August 2025 approved. (CCAG-DEC75) ACTION eCCAG46-03: RECCo provided a verbal update to close out this action. RECCo confirmed that two sets of DTN changes (DCUSA and BSC updates) will be combined into a single release. The DCUSA change (DCP462) is set for implementation on 22 October 2025, subject to

	Ofgem approval. A pre-release version of the DTC will be published once Ofgem's decision is made, ensuring parties are aware of the changes ahead of implementation. The Programme highlighted that references in PSG slides to “pre-M11” implementation should now explicitly state the confirmed date of 22 October 2025.
M8 Reporting	M8 reporting was provided by the Programme, DIP Manager, REC and BSC, following the implementation of M8 on 22 September 2025. Some key headlines from the Programme are as follows: • The MHHS Programme workstream is planning to be closed down (see Workstream Closure section below), • The MHHS Programme Collaboration Base and website have been updated to reflect the final code artefacts for BSC, REC, DCUSA and EMRS. • All code queries will be directed to individual Code Bodies More detail can be found in the meeting slides.
Horizon Scanning Log	The Code Bodies provided a high-level overview of current and upcoming changes listed on the horizon scanning log. More detail can be found in the meeting slides. DIP Horizon Scanning: The RECCo and Supplier & Agent Reps noted that DCR005 and DCR006 were issued for consultation on 19 September, with closure dates 03 and 17 October, respectively, with implementation decisions expected in November. Future of Horizon Scanning Programme also provided an update on the future of Horizon Scanning. The Programme is still accountable for protecting programme deliverables until M15 which includes ELS, Qualification and Migration deliverables. The Horizon Scanning process will continue in a new code forum attend by the Programme, Code Bodies and Ofgem. More detail can be found in the meeting slides.
Workstream Closure	The Programme proposed the closure of the Code Workstream based on the following criteria: • Workstream criteria has been meet • Code Artefact delivery is complete • No outstanding actions remain There were no objections from CCAG members. DECISION: SRO to close the Cross Code Advisory Group (CCAG DEC-76). Today's CCAG meeting on 24 September will become the final meeting.

Summary and Next Steps	The Chair and Ofgem representatives thanked all members for their contributions to this group over the last three years, recognising the effort and commitment of all involved.
-------------------------------	---

This was the final meeting of CCAG.

Attendees

Chair

Chris Welby (CW)

Role

SRO Chair

Industry Representatives

Andrew Wallace (AW)

REC Representative

Sean Dryden-Woods

DIP Manager

Paul Saker (PS)

Supplier Representative (Domestic)

Matthew McKeon (MM)

Senior Design and Industry Code Advisor

Holly Law (replacing Harriet Truss)

REC Representative

Lawrence Jones (LJ)

BSC Representative

Neil Dewar

NESO

Clare Hannah (CH)

Supplier Agent Representative

Jacob Snowden

BSC Representative

Other attendees

Andy McFaul

Ofgem

Reece Harris

IPA

Tim Newton

Gemserv

Jacob Brogden

MHHS Industry SME

Fungai Madzivadondo

Energy Networks Representative

Steven Bradford

SI Design Lead

Philip McCann

PMO Governance Lead

Rob Short

MHHS Design team

Paul Pettitt

MHHS Design Lead

Andrew Margan

SRO

Kevin Spencer

Senior Market Architect
