Qualification Planning

INFORMATION: Programme and Code Bodies share overview on an update to the QA&P and new 'Migration Pathways', which have recently been made available to industry via a PPIR.

Code Bodies & Programme (Laura Kennedy / Jason Brogden)

5 mins

Qualification Planning

- Qualification Testing (QT) progress across Waves 1 and 2 and the Wave 3 and 4 QT Test Plans show that many Non-SIT participants either have or plan to complete their QT and submit Test Completion Reports (TCR) before their Qualification Wave deadlines set out in Appendix C of the QA&P.
- As a result of these trends across QT, Code Bodies and Programme have been reviewing the Qualification plan to see how it can be enhanced so it provides more guidance to those participants who either have or are on track to complete QT before their Wave's QT window.
- Two key outputs have come out of this exercise, these are:

1

Minor updates to QT dates for each Wave in QA&P Appendix C, which has been issued to industry via consultation on Monday 19th January

2

Development of 'Migration Pathways', which have been made available via a PPIR issued to industry on Monday 19th January

- The PPIR contains a number of questions to validate the timing of Migration Pathway activities for non-SIT Participants, as well as asking questions for all Participants on options for future ISD publications to support potential Migration Pathways and can be found here: [Current PPIRs - MHHS Programme](#)
- A webinar was convened Wednesday 21st January, where the Programme and Code Bodies went through the PPIR in more detail and there was the opportunity for participants to ask questions and discuss this topic in further detail. The recording and Q&A will be made available from this webinar.
- This being shared with QAG to raise awareness.

L3/L4 Validation

INFORMATION: DIP Manager to provide an overview on L3/L4 Participant Message Validation Issue

DIP Manager

L3/L4 Participant Message Validation Issue

Problem Statement

Not all participants have implemented L3/L4 validation. The requirements for Participant L3/L4 validation are taken from the End-to-End requirements. All the requirements are rated **MUST** and required for qualification:

E2E0201	Schema validation	M	Services shall undertake Level 3 message validation including structure, and the format of individual data fields/elements shall be performed against the appropriate message schema definition of all interface interactions.
E2E0207	Message Receipt	M	When sending messages all services shall use the http response of the API transaction to establish whether a message has been received by the DIP
E2E0203	Error Reporting	M	When Level 3 validation fails, e.g. when payload contents cannot be reconciled (schema validation), a response with the corresponding error code shall be reported back to the DIP via the http response in the webhook callback

The issue has been there has been no clear mandate as to which validations taken from DES 138 are required.

A subsequent issue is that these checks have not been committed to code (either BSSCo or RECCO operations or the DIP Rules).

L3/L4 Participant Message Validation Issue

Proposed Solution

To remedy the issues the following is proposed:

- The list of L3/L4 validations is formalised in code
- Each code is assigned an Owner – either RECCo, BSCCo or DIP Manager.
- Some validations can be undertaken in Swagger and hence marked as conditional.
- All checks are mandatory (with exceptions see note on Swagger validation) and whether the check is undertaken at choice of L3 or L4 is at the discretion of the qualified party
- Can look to extend the solution to cover L5 validation response codes
- Implementation options are being pursued in the MHHS Expert Group Meeting

M14 Delivery Confidence

Due to there being an open red risk which relates to Wave 4 Qualification, T2-QU-0300 is RAG'd amber, but Code Bodies and the Programme are actively taking steps to mitigate this risk and anticipate that this risk will be mitigated. Taking into account the progress of QT and QAD drafting / reviewing and the impact mitigations are having on the other Qualification risks and issue scores, the Programme and Code Bodies still believe **M14 is currently on track to be delivered to plan on 28/10/26**, noting R1215 which is the main risk to Qualification.

Governance group updates

Programme Steering Group (PSG)

PSG 14 January 2025

Migration Update: A Migration update outlined Migration progress to date. Migration has been paused since 07 January due to a D0209 processing issue.

Qualification Update: A Qualification update was provided with waves 1 – 4 on track but with Qualification Testing retaining an Amber RAG status.

Early Life and Hypercare Update: Programme and Elexon provided an overview of ELS Phase 2 Exit and a view of the D0209 processing issue which has resulted in Migrations being paused. Elexon advised that a fix has been deployed and is recommended a restart of Migration.

Hypercare systems are progressing well across the Central Parties.

Roadmap of Changes Backlog: Elexon presented a roadmap of changes but accepted feedback to come back with a more detailed roadmap to include all approved and potential changes, as well as DIP and REC changes.

PSG papers available [here](#).

Migration & Cutover Advisory Group (MCAG)

MCAG 18 December 2025

ELS Phase 3 Entry: SRO approved Entry into ELS Phase 3, with no objections raised by MCAG members.

Migration Execution: Programme provided an update on Migration Execution, with Execution and Completion on track.

Migration Exclusion List: An update on Migration Exclusion and Remediation lists was presented and the Programme noted that a PPIR will be shared with all Suppliers in Q1 2026.

MWG update: Programme gave an overview of most recent MWG meeting.

MCAG papers available [here](#).

Qualification Advisory Group (QAG)

QAG 17 December 2025

Pathway 6 Closure: Due to two PPs being unable to qualify by 18 December 2025 the Pathway 6 end date was extended to 30 July 2026.

Sandbox Guidance: v2.4 Sandbox Guidance was uplifted, which contained minor updates communicated at QTEF.

New Entrants: Transitional arrangements closed on 09 Dec 2025; 11 new entrants already in progress may continue, while new PPs must qualify via enduring arrangements.

Qualification Update: Several T3 milestones were approved on the basis that minimum thresholds had been met and that the milestones are highly likely to be achieved by 12 January 2026.

QAG papers available [here](#)

Wider Programme Updates

Participant Checklist:

This week's Participant Checklist includes the following items for Programme participant review, feedback and awareness:

1. NEW! Migration Update - the deadline for **all Suppliers** to submit their **updated Migration plans** is **today, Wednesday 21 January 2026**
2. NEW! Timelines for upcoming Qualification activities by Wave – **please note the various deadlines for the Wave you're in**
 - **Deferred Pre-Integration Testing (PIT) evidence** from relevant **Wave 2 participants** is due by **Friday 23 January 2026**
3. NEW! Qualification Approach & Plan Appendix C Consultation – the deadline is **Friday 30 January 2026**
4. NEW! Programme Participant Information Request (PPIR): End-to-end (E2E) Participant Journey, Migration Pathways & Industry Standing Data (ISD) Publish – the deadline is **Friday 30 January 2026**
5. NEW! OVO Qualification Testing (QT) Spotlight at Qualification Test Execution Forum (QTEF)

You can view the **Participant Checklist** on the respective **Planning pages** of the **Collaboration Base** and the **MHHS website**. In the Participant Checklist you can view upcoming consultations and key deliverables, as well as the latest status of Change Requests in the **Master Change Request Dashboard** tab.

Upcoming Governance Meetings:

Here's what's coming up over the next week:

- **Wednesday 21 January 2026:** [Transition & Operational Readiness Working Group \(TORWG\)](#) at 14:00
- **Wednesday 28 January 2026:** [Qualification Advisory Group \(QAG\)](#) at 10:00
- **Wednesday 28 January 2026:** [TORWG at 14:00](#)
- **Thursday 29 January 2026:** [Extraordinary Migration & Cutover Advisory Group \(eMCAG\)](#) at 14:00

SIT MVC, Non-MVC and Non-SIT LDSO QAD timelines

Dates below can be found in QA&P Appendix C and represent the final date by which the Initial and Final Qualification Assessment Documents are expected. For SIT M10 Ready and Non-SIT LDSOs, the QAD submission dates must be met. However, if not SIT M10 Ready, if QAD submission dates are not met, we will work with participants to understand the impact on their proposed timeline and it does not mean that you would be automatically 'held back' until the Qualification wave. If a participant has completed all of the prerequisites, we will progress the Qualification in line with the timeframes below. We encourage early submission where possible, this is to ensure that participants have time to respond to reviewer comments. BSC PAB will convene more frequently (fortnightly) throughout the MHHS Qualification period to manage the increased volume of Qualification approvals. Participants are responsible for continuing to engage with MHHSP and MCC regarding Migration timelines and plan
