

Document Information

Overview

Document Name	Elexon SOLR BPM
Senior Responsible Owner	Karen Lavelle
Author	Jacqueline Nunn & Mal Kaur
Reviewer(s)	PM Team
Purpose	To document the Elexon SOLR Business Process

Notes:

Key:

Gateways

Parallel

Parallel Gateway: this is used to combine parallel flows and to create parallel flows without creating any conditions

Exclusive

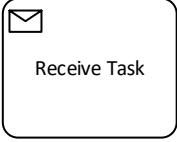

Exclusive Gateway: this is used to create alternative paths within a process – only one of the paths can be taken

Tasks

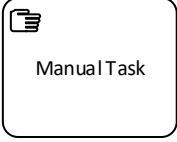

Send Task

Send Task – a simple task designed to send a message to an external participant

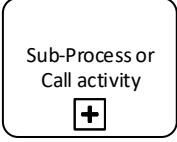

Receive Task

Receive Task – a simple task designed to receive a message from an external participant

Manual Task

Manual Task - a task that a person performs

Sub-Process or Call activity

Sub-process/call activity – has a symbol in the lower center indicating there is a lower level of activity that can be expanded upon. Can be a sub-process or a re-useable global process
